REBLOOMING HYDRANGEA FOR BIG BEAUTIFUL LANDSCAPES

Endless Summer® hydrangeas provide reliable color month after month, year after year.

BloomStruck®

Hydrangea macrophylla 'PIIHM-II' PP25,566 CPBRA

- Hardiness Zone: 4-9
- Height 3-4'
- Mildew resistant
- Remarkable heat tolerance
- Thick, dark green leaves and striking ruby red stems
- Purple blooms in acidic soil, deep pink blooms in alkaline soil
- Sun or Partial Shade
- Width 4-5'
- Mophead flowers

This smaller, architectural form is ideal for smaller spaces where color is important but space is limited.

With intensely colored purple, blue or rich pink flowers on strong red stems, BloomStruck® is more upright than the other varieties, has glossy green foliage and is a potent rebloomer.

The Original

Hydrangea macrophylla 'BAILMER' PP15, 298

Large blue or pink mophead blooms start blooming on old wood then produce new blooms on new wood. Plant size can be 3-5' tall and wide, depending on where they are planted and age of the plant.

- Hardiness Zone: 4-9
- Height and width: 3-5'
- Mophead flowers
- Sun to Partial Shade
- Mildew resistant
- Blue blooms in acidic soil, pink blooms in alkaline soil

Twist-n-Shout®

Hydrangea macrophylla 'PIIHM-I' PP20,176

- Hardiness Zone: 4-9
- Height and width: 3-5'
- Blue blooms in acidic soil, pink blooms in alkaline soil
- Lacecap flowers
- Sun to Partial Shade
- Mildew resistant

With big lacecap flowers in blue or pink, Twist 'n Shout® is an impressive bloomer with a contemporary look.

BlushingBride

Hydrangea macrophylla 'Blushing Bride' PP17,169

With classic white mophead flowers, Blushing Bride® continues to be a favorite in classic designs providing many months of bloom.

- Hardiness Zone: 5-9
- Height and Width: 3-6'
- Mophead flowers
- Sun - Morning Sun
- Mildew resistant
- White blooms mature to Carolina blue in acidic soil, blush pink in alkaline soil
