First Editions® Flipside™ Vitex

Southeastern Region-Growing and Container Production Guide

pH: 6.0-6.5

EC: .5-2.0

Exposure: Full Sun

Propagation:

Cuttings are taken during the spring and summer months. Hormodin #2 is applied.

Production:

Planting Time: Spring

Planting Media: Medium low to medium rate of controlled release fertilizer. No urea.

Pruning: May need an additional pruning to achieve desired form.

Watering Needs: Keep plant moist, do not over water plants at any time.

Special Notes:

Responds well to pruning after the first bloom cycle. Will continue to rebloom.
