First Editions® French Cabaret™ Red

Hibiscus syriacus 'Mindour 1' PPAF

Plant Highlights

- Large, double, red flowers
- Sterile flowers
- Upright plant habit
- Vigorous growth

General Characteristics

- Deciduous
- Hardiness Zones: 5-8
- Mature height: 5-8'
- Mature width: 4-7'

First Editions® French Cabaret™ Red

Pacific Northwest-Growing and Container Production Guide

pH: 6.0-6.5

EC: 1.0-1.5

Exposure: Part shade to retain nice green foliage.

Exposure Note:

Growing under milk poly helps give foliage a darker green color. Plants do not need shade, but give a better color if they have a little.

Propagation:

Softwood propagation in mid-summer. IBA applied at 1,000ppm. Roots in about 45 days.

Production:

Planting Time: Spring – May 1st

Planting Media: Slow release incorporated at spring planting and top-dressed the following spring if needed.

Watering Needs: Normal Watering Schedule

Pest/Disease Management: Aphids, bacterial leaf (Xanthomonas spp), Gray mold (Botrytis)

Overwintering: Overwintered under poly. Minimum temperature in an average year is 20°F.

Pacific Northwest Region - Estimated Finishing Times

	8"/1G Container	2G Container	3G Container	5G Container
38 Cell Liner	5 Months	Year + Flush		
18"-2' Bareroot			18": 12 Weeks	2': 12 Weeks
8"/1G Upshift		12 Weeks	5 Months	

Note: The information presented should be considered as a starting point for best practices. Production times and product applications will vary depending on the growing region and conditions. It is the responsibility of the applicator to follow all current manufacturer label directions in a responsible manner.
