

Glow Girl®

Spiraea betulifolia 'Tor Gold', ppaf, cbr#5121

Fall color

Super-hardy birchleaf spirea is a great choice for northern landscapes. Reddish buds open to pure white blooms in spring. This gold-leaved selection has bright lemon-lime foliage which holds its color well through the summer without burning, then transforms to a rich burgundy in fall. Glow Girl spirea is an excellent plant for low hedges, mass plantings, and foundation plantings.
