

Petit Bleu™

Caryopteris x clandonensis 'Minibleu', pp#14,674

Superior flower display

Short internodes result in an intense floral display of deep blue flowers that butterflies adore. Tight compact growth and dark green glossy foliage give it great appeal, especially for fall.

- SIZE & SHAPE
24-36" TALL
AND WIDE

- SPACING 3-4'
- USDA 5, AHS 9
- FULL SUN

DEER-RESISTANT | DROUGHT-TOLERANT | PRUNE BACK IN SPRING
