**First Editions® Chapel View™ Cedar**

A beautiful evergreen for small space gardens.

**St. Paul, Minn.** (Spring 2013) – The compact stature of First Editions® Chapel View™ Cedar make it an excellent evergreen choice for smaller yards. This tree keeps the traditional pyramid shape, but in a more petite form, and is easily pruned to maintain the perfect size.

Developed by Plant Introductions, Inc. and Sarah P. Duke Gardens, Chapel View's deep blue-green needles are resistant to winter bronzing, providing a wonderful jade green backdrop to the cool season garden.

**First Editions® Chapel View™ Cedar**

*Cryptomeria japonica* 'PIICJ-I'

**Location:** Full sun to partial shade

**Zone:** 5-8

**Height:** 5- to 10-feet

**Width:** 4- to 8-feet

**Foliage:** Bright blue-green

Look for First Editions Chapel View Cedar in the purple pot at garden centers this spring.
