**First Editions® Hypericum Add Unique Color and Texture**  
Pumpkin and White varieties join the line-up.

**St. Paul, Minn.** (Spring 2013) – First Editions® Hypericum are an easy way to add visual interest to your garden. Spring blossoms give way to clusters of colored berries that are a perfect alternative to fall mums. A great garden plant, Hypericum are also stunning in flower arrangements.

This group of Hypericum is particularly rust-resistant and each variety looks spectacular grouped together in the garden or as part of a container combo.

**First Editions® Pumpkin™ Hypericum**  
*Hypericum inodorum* 'Kolmapuki' PPAF

The festive orange berries of the new Pumpkin™ Hypericum make an excellent addition to any fall décor. Try this plant in mixed containers with mums or flowering kale, or add the berry stems to cut flower arrangements.

**Location:** Full sun  
**Zone:** 5-9

**Height:** 30- to 36-inches  
**Width:** 24- to 30-inches

**First Editions® White™ Hypericum**  
*Hypericum inodorum* 'Kolmawhi' PP21,631

When planted in groups, the bright white berries of the new White Hypericum are stunning. The berries also create a unique accent for bouquets and containers.

**Location:** Full sun  
**Zone:** 5-9

**Height:** 30- to 36-inches  
**Width:** 3-feet

**First Editions® Glory™ Hypericum**

*Hypericum* 'Kolmaglor' PPAF

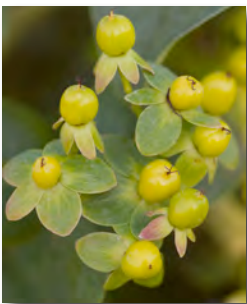

First Editions Glory Hypericum is a true color breakthrough, with creamy, caramel-colored hips.

**Location:** Full sun

**Height:** 30- to 36-inches

**Zone:** 5-9

**Width:** 3-feet

**First Editions® Green™ Hypericum**

*Hypericum* 'Kolmgreip' PP13,557

First Editions Green Hypericum features bright, green apple-colored hips.

**Location:** Full sun

**Height:** 30- to 36-inches

**Zone:** 5-9

**Width:** 3-feet

**First Editions® Beauty™ Hypericum**

*Hypericum inodorum* 'Kolmbeau' PP13,532

First Editions Beauty Hypericum is covered with bright yellow blossoms in spring and large clusters of salmon-pink fruits in the fall.

**Location:** Full sun

**Height:** 30- to 36-inches

**Zone:** 5-9

**Width:** 24- to 30-inches

**First Editions® Red Star™ Hypericum**

*Hypericum inodorum* 'Kolmarest' PP21,313

Large clusters of red berries cover the branches of First Editions Red Star Hypericum.

**Location:** Full sun

**Height:** 30- to 36-inches

**Zone:** 5-9

**Width:** 24- to 30-inches

Look for all six First Editions Hypericum in the purple pot at garden centers this spring.
