First Editions® Vintage Jade™ Distylium

New easy-to-grow shrub variety offers a touch of green all year long.

St. Paul, Minn. (Spring 2013) – First Editions® Vintage Jade™ Distylium is a low growing, spreading shrub. Distylium are members of the witch-hazel family, offering beautiful green foliage all year long.

Vintage Jade's blooms appear in late winter, offering small burgundy flowers. The dark green leaves are disease and pest resistant, and the plant is very tolerant of both dry and wet soil. This easy-to-grow deciduous shrub is a good replacement for cherry laurels, junipers, hollies and Indian hawthorns.

First Editions® Vintage Jade™ Distylium

Distylium x 'Vintage Jade' PPAF
