

Buckeyes are beautiful native trees, and this one is special because of its brilliant red fall color. Spring brings large white panicles of blooms that are touched with red and yellow. The foliage shows good disease resistance to scorch and leaf blotch. Autumn Splendor was named for its vivid maroon-red fall color. Prefers moist soil and full sun for best flower production. From the University of Minnesota.

BENEFITS OF AN OCT 6' GRADE

- Perfect size for upshifting to a #25 container
- A larger size for quicker turnaround in field production
- Has a well-developed top

HEIGHT 30-35'	WIDTH 25-30'	ZONE 3-8	EXPOSURE Full Sun
