

Princeton Sentry® is a male selection with an upright, columnar habit that is perfect for street plantings. Going a step further, this selection shows resistance to pest and disease problems, while tolerating salt and pollution. Ginkgo are heavy feeders, so we apply lime and fertilizer to give you a strong and healthy tree.

**BENEFITS OF A LIGHT-BRANCHED GRADE**

- Great value that requires less pruning
- Ideal for selling to municipalities
- Has been grafted for improved performance
