

Amber Jubilee™ was selected for its striking new foliage in glowing tones of orange, yellow and gold. Rounded and dense in habit, this shrub with its bold array of colors makes an eye-catching hedge. Delicate white blooms are produced in spring. Summer foliage is green. Can be stage pruned in production through July to force colorful new growth. Fall foliage is highlighted with tones of red and purple, making this mildew resistant ninebark appealing over the entire season. Plant in full sun for best performance. Result of a controlled cross between 'Darts Gold' and Diablo® ninebark. Selected at Jeffries Nursery in Manitoba, Canada. (CPBR #4765, ®CA)
