

This improved Canada Red cherry was selected by Bailey Nurseries for its vigorous growth, straight trunk and uniform top. Foliage emerges green and turns a darker red as it matures, with a thicker leaf texture than regular Canada Red. Long clusters of small white flowers in spring. Edible ¼" fruit ripens from red to dark purple. Minimal suckering. Proper soil conditions are necessary for normal growth with this variety. Pay special attention to ensure good drainage and aeration.

**BENEFITS OF AN 8' CVI GRADE**

- Gives you a well-branched tree with symmetrical branching
- Ideal for a quick turnaround in a #10 container
- Comes from certified virus nursery stock

<b>HEIGHT</b> 20-25'	<b>WIDTH</b> 20'	<b>ZONE</b> 2-8	<b>EXPOSURE</b> Full Sun
