

BLOOMSTRUCK[®] REBLOOMING HYDRANGEA

Hydrangea macrophylla 'PIIHM-II' PP25,566

USDA Hardiness Zone: 4

AHS Heat Zone: 9

Height: 3-4'

Spread: 4-5'

Shape: Rounded to spreading | Exposure: Morning Sun/Afternoon Shade

BloomStruck[®], part of the Endless Summer[®] Collection, is another breeding breakthrough. After 50 days below 0° F, and a low of -28° F, BloomStruck[®] flowered heavily the following spring on old growth and put out loads of blooms on new growth. In addition to being cold tolerant, BloomStruck's glossy dark green leaves are more heat resistant, which prevents wilting in mid-day heat. This reblooming mophead has rounded flowers averaging 3.5 - 5" across in intense rose-pink, violet or blue, depending on pH levels. Flower heads are held upright on striking ruby red stems, adding to this plant's retail presence. (C[®])
