

POP STAR® REBLOOMING HYDRANGEA

Hydrangea macrophylla 'Bailmacsix' PP33,703

USDA Hardiness Zone: 4-9

AHS Heat Zone: 9

Height: 18-36"

Spread: 18-36"

Shape: Mounded

Exposure: Morning Sun/Afternoon Shade

Genetically compact and incredibly floriferous, Pop Star® Hydrangea is a lacecap variety that is a standout in the landscape or decorative container. With strong bud hardiness and reliable rebloom, Pop Star® is a blooming powerhouse. Its short stature makes this a strong border or short hedge plant that doesn't need pruning to keep its size and is great for year-after-year color on your deck, patio, or porch. The dark green leaves against the blue or pink blooms give the classic hydrangea look, while the lacecap flowers add extra texture and interest to the garden.
