

DARK MODE™ DIERVILLA

Diervilla x splendens 'Baildiertwo' PP37,622

USDA Hardiness Zone: 3-8

AHS Heat Zone: 8

Height: 3'

Width: 3-4'

Exposure: Full Sun

Shape: Upright, Spreading

First Editions® Dark Mode™ Diervilla is a bold, upright native selection with purple-black foliage that holds its color all season. Recurrent yellow flowers contrast vividly against the dark leaves, adding multi-season interest and pollinator appeal. Compact at 3' tall and 3-4' wide, it finishes uniformly and works well in production, retail, and landscape settings. Bred by Bailey Innovations™, Dark Mode™ is hardy in Zones 3-8, deer resistant, and tolerant of drought and wet soils. Thriving in full sun to part shade, it performs reliably even in tough conditions.
