A close-up photograph of a plant with small, oval-shaped leaves. The leaves are primarily green, but many have a distinct reddish-brown or coppery tint, especially on the upper surfaces and along the edges. The plant appears to be a shrub or groundcover. The background is a soft-focus continuation of the same plant.

FIRST EDITIONS®

SELECTED FOR SUCCESS™

This premium brand consists of more than 100 unique varieties of shrubs, trees, evergreens, roses, and vines. Enjoy first-in-class genetics, regional assortments, attractive packaging, and national marketing support.

Exceptional Genetics

We strive to deliver new plants that meet or create market demand through Bailey Innovations™, and relationships with other independent breeders to produce an exciting pipeline of truly superior plants.

Production Tested

With First Editions® you can be sure plants in the brand survived rigorous field testing as well as production testing. These varieties establish quickly for fast turns and look good in the First Editions® pot.

Regional Product Mixes

We offer plants for the coldest regions of the United States and Canada, a balanced offering for mild climates, and an exciting selection of cutting edge varieties for warmer regions of the country.

Retail Appeal

Merchandising is easy with recognizable purple pots, large picture tags, and inspirational P.O.P.

Professional Marketing

First Editions® provides the information consumers care about in easy to use formats on social media, online, editorials, mobile care programs, and more.

ALWAYS GROWING

A great plant brand starts with great genetics, be it through objective-driven breeding work at Bailey Innovations™ or partnerships with other breeders. Our approach to adding new products to First Editions® is straight forward; it has to be a meaningful improvement for the market.

SEEDLINGS GERMINATE FOR EVALUATION

LANDSCAPE TRIALS UNDERWAY IN MINNESOTA

CONTAINER TRIALING IN GEORGIA

TESTING & TRIALING

To be worthy of introduction, a First Editions® plant must persevere through rigorous trials. Our breeding facilities at Bailey Innovations™ allow us to produce young plants, finished container plants, and field grown plants so we can fully understand how they perform. That means you can be confident knowing serious time and resources went into the trialing process before they made the cut to become a First Editions® plant.

NATIONAL TRIAL SITES

In addition to Bailey production sites, we also partner with many universities and public gardens across the country to understand how they perform in other regions.

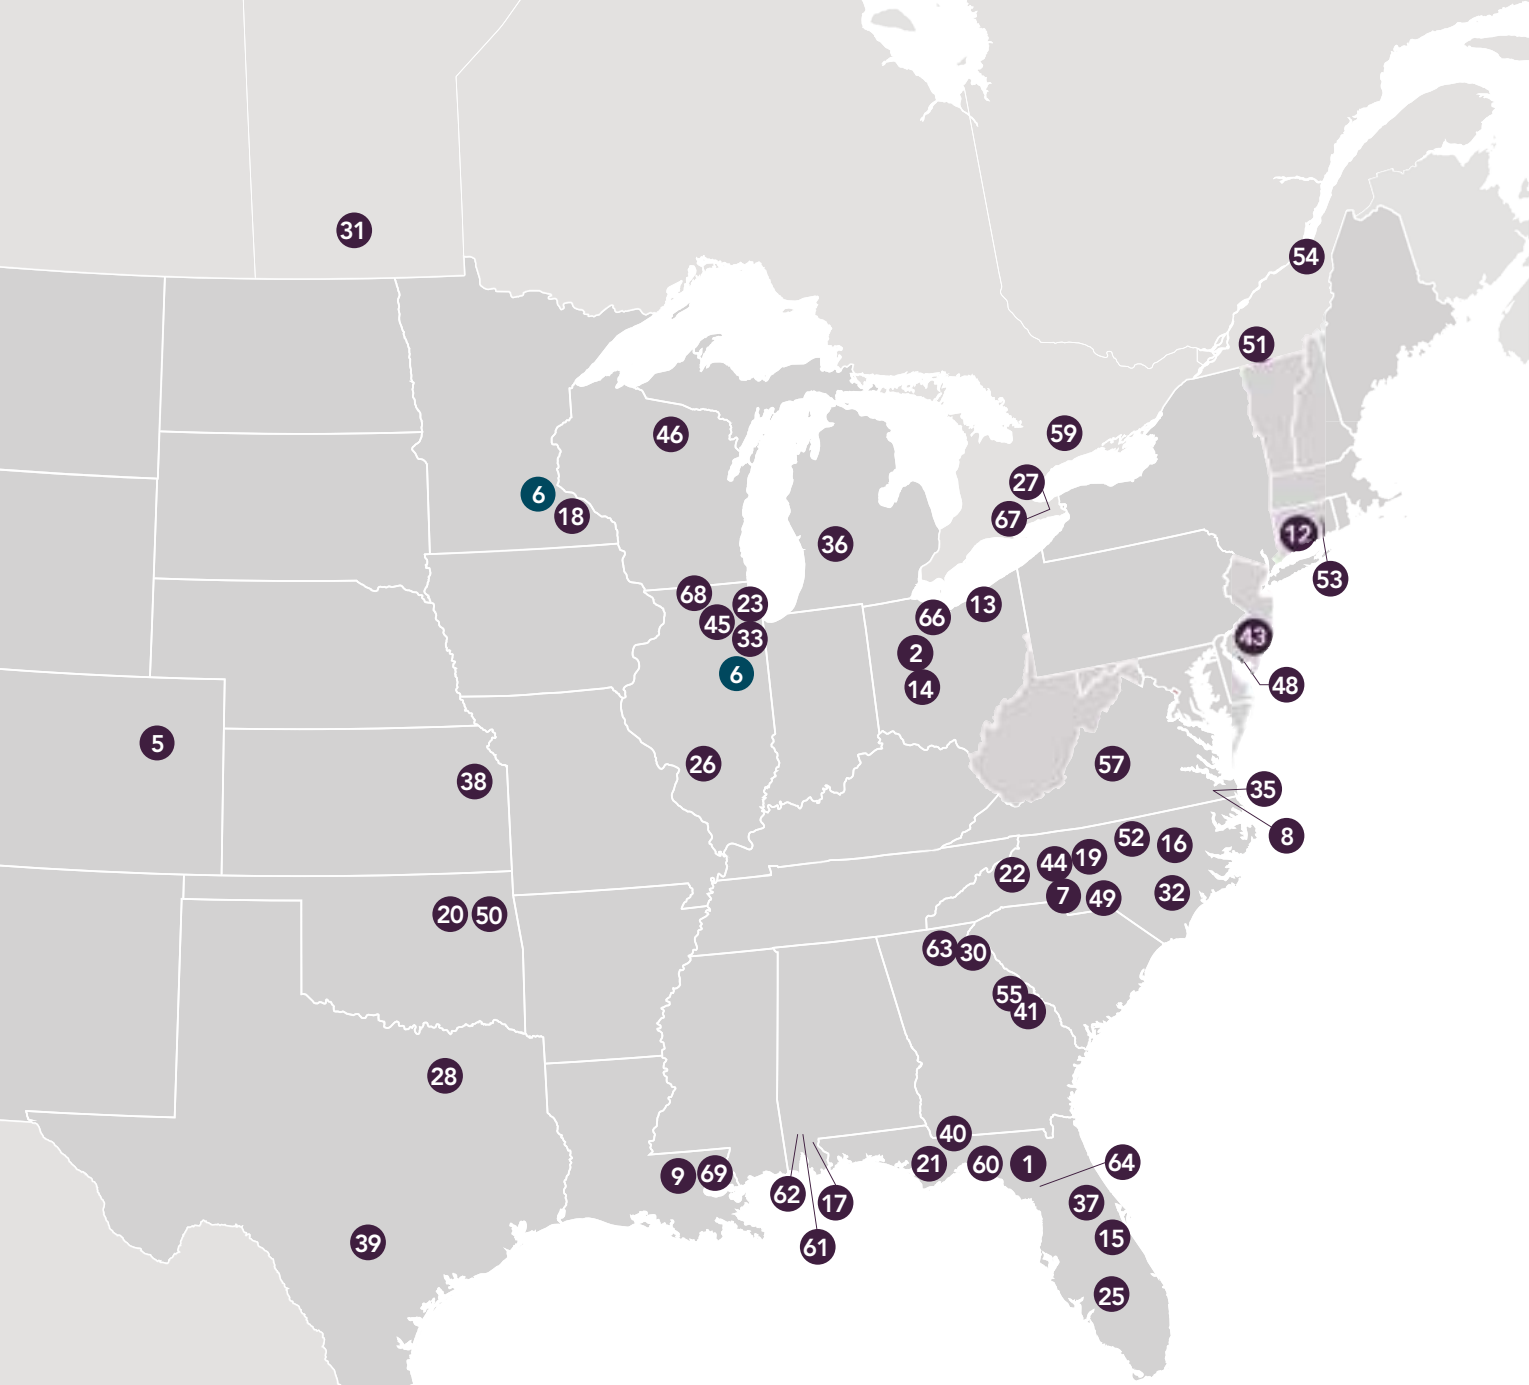

NATIONWIDE DISTRIBUTION

With an expansive network of trusted licensed growers, First Editions® plants are readily available across North America.

LANDSCAPE SOLUTIONS & IDEAS

TOP LANDSCAPE CHOICES

Need a little inspiration for some new solutions to common landscape design challenges? We've got a few favorites to spice up your palette. Some are new varieties and some are plants that deserve more attention because they are such good workhorses in the landscape.

MASS PLANTINGS

Whether formal or informal, in groups of 5 or 150, mass plantings are an important design feature that can be used in both residential and commercial landscapes to provide color, texture, and scale.

- Cool Splash® Dwarf Bush Honeysuckle
- Distylium Collection
- Tiger Eyes® Cutleaf Staghorn Sumac
- Iceberg Alley™ Sageleaf Willow
- Matcha Ball™ Ash Leaf Spirea

HEDGES

Trimmed tightly or allowed to take on their natural form, these shrubs make an excellent screen or fence to define a space and create boundaries.

- Autumn Inferno™ Cotoneaster
- Chapel View™ Cryptomeria
- Standing Ovation™ Serviceberry
- Parkland Pillar™ Birch
- Sky High™ Juniper
- Straight Talk® Privet

FOUNDATION

Frame houses and buildings with shrub plantings that tie the design to the surrounding landscape and enhance the style, by softening or accentuating the architecture.

- Gardenia Collection
- Cobalt-n-Gold™ Hypericum
- Love Child™ Sweetspire
- Crimson Fire™ Fringe Flower
- Fireside® Ninebark

LOW MAINTENANCE

An ideal choice for both home gardeners and landscapers who want success with little input, these shrubs require little to no pruning, are adaptable to a range of soils, and are pest and disease resistant.

- Potentilla Collection
- Lilacs
- Spring Lace Viburnum
- Spirea Collection
- Weigelas

DEER RESISTANT

A feast for your eyes, not the local deer population.

- Barberry Collection
- Lotus Moon™ Pearlbush
- Hibiscus Collection
- Crapemyrtle Collection
- Ninebark Collection

POLLINATORS

Attract a range of different pollinators to create a healthy and beautiful ecosystem.

- Butterfly Bush Collection
- Sapphire Surf™ Bluebeard
- Fiber Optics® Buttonbush
- Tianshan™ Seven-Son Flower
- Chastetree Collection

CULTIVATE NEW CUSTOMERS

First Editions® offers retail marketing resources to help you promote your business, and engage new and existing customers across a variety of platforms.

SET UP CUSTOMERS FOR SUCCESS

With regionally specific planting and care advice as well as inspiration, First Editions® marketing programs help retail customers succeed with the products they take home.

From planting and care advice to inspiration, our website FirstEditionsPlants.com and mobile care program do the heavy lifting for you.

PLANT COLLECTION C A T A L O G

BANANAPPEAL® SMALL ANISE TREE

SHRUBS

Eternal Sunshine™ Abelia

Abelia x grandiflora 'PIAB-II' PP25,305

Early blooming, abundant pink flowers cover this deciduous to semi-evergreen, mounding plant. Blossoming on new wood, this selection benefits from timely pruning to encourage new shoots and increase flower production. The juvenile growth is bronze and matures to bright emerald green that does not bleach or burn in southern sun. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 2-3'	Spread: 4-6'
Exposure: Full Sun	Shape: Mounding

Standing Ovation™ Serviceberry

Amelanchier alnifolia 'Obelisk'

Standing Ovation™ is covered in white flowers each spring, which often turn into edible berries in June. As the seasons continue, dark green, almost circular leaves change to red and orange in autumn. Its upright, perfectly oval form adds height in small gardens, and provides nice structure during winter. Standing Ovation™ is a good alternative to columnar buckthorn. The uniform habit makes it great for hedging. From Valk Plants in the Netherlands.

USDA Hardiness Zone: 2	AHS Heat Zone: 7
Height: 15'	Spread: 4'
Exposure: Full Sun	Shape: Upright

BARBERRY COLLECTION

alone

ACCENT COLOR

FOUNDATION

1- Moscato™ Barberry

Berberis thunbergii 'BailAnna'

New foliage emerges lime green with a contrasting orange/peach margin, which fades to green in summer. Forms a densely branched, spreading mound, which fits easily in smaller spaces. Can be used as a substitute for boxwood in colder climates where boxwood is not winter hardy. Bred by Don Selinger and introduced by Bailey Nurseries.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 2-3'	Spread: 3-5'
Exposure: Full Sun	Shape: Low, spreading

2- Cabernet® Barberry

Berberis thunbergii atropurpurea 'Moretti Select'

This extremely dense, compact form of 'Crimson Pygmy' does not require pruning and is more winter hardy. Bright crimson new growth is followed by rich burgundy to purple foliage. From R & V Moretti Nursery.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 2'	Spread: 2-3'
Exposure: Full Sun	Shape: Compact, mounded

3- Daybreak Barberry

Berberis thunbergii 'Daybreak' PP23,747

Daybreak is a colorful, compact barberry that holds up remarkably well in the south. The foliage emerges orange-red and eventually matures to bright yellow- gold that doesn't burn or bleach in the summer heat. It forms a beautiful rounded mound that requires very little pruning. It has been fruitless to date. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 4	AHS Heat Zone: 8
Height: 1.5'	Spread: 1.5-2'
Exposure: Full Sun	Shape: Compact, mounded

BARBERRY COLLECTION

1- Lambrusco™ Barberry

Berberis thunbergii 'BailElla'

Densely arranged leaves coupled with a spreading habit make this barberry a useful landscape plant. The foliage emerges red and deepens to burgundy as the season progresses. Can be used instead of 'Crimson Pygmy' in colder climates since it is more cold hardy. Bred by Don Selinger and introduced by Bailey Nurseries.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 2-3'	Spread: 3-5'
Exposure: Full Sun	Shape: Low, spreading

2- Limoncello™ Barberry

Berberis thunbergii 'BailErin'

Forming a tidy, round mound, this barberry has chartreuse foliage with an unusual red, almost dotted pattern around the leaf margin through July in Minnesota. Fall foliage is orange, yellow and red. The bright color and habit make it a good accent plant in foundation plantings. Bred by Don Selinger and introduced by Bailey Nurseries.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 3-4'	Spread: 3-4'
Exposure: Full Sun	Shape: Mounding

3- Toscana™ Barberry

Berberis thunbergii 'BailJulia'

The large showy foliage emerges red in spring with a fine, bright yellow margin. The margin eventually fades through summer, but the foliage remains a good red. The leaf color darkens in autumn, taking on flaming scarlet tones. Forms an upright shrub with arching branches. Bred by Don Selinger and introduced by Bailey Nurseries.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 3-5'	Spread: 2-4'
Exposure: Full Sun	Shape: Upright, arching

BUDDLEIA COLLECTION

bold color
for summer
landscapes

1- Funky Fuchsia™ Butterfly Bush

Buddleia davidii 'PIIBD-II' PP26,278

Rounded to upright habit with dark green foliage, gray beneath. The habit is more upright than 'Miss Molly' and 'Miss Ruby'. Rich reddish-pink inflorescences are very upright and quite fragrant. Showy flowers average 6-8" long and up to 10" long on vigorous shoots.

USDA Hardiness Zone: 5	AHS Heat Zone: 9	Height: 6-8'	Spread: 6-8'
Exposure: Full Sun	Shape: Rounded to upright		

2- Groovy Grape™ Butterfly Bush

Buddleia davidii 'PIIBD-I' PP26,305

Rounded to upright habit with arching 8-10" long inflorescences. Rich, violet-purple flowers are fragrant.

USDA Hardiness Zone: 5	AHS Heat Zone: 9	Height: 8-10'	Spread: 6-8'
Exposure: Full Sun	Shape: Rounded to upright		

3- Psychedelic Sky™ Butterfly Bush

Buddleia davidii 'PIIBD-III' PP26,306

Well matched with Funky Fuchsia™ in habit and flower display, Psychedelic Sky™ has clear blue flowers on upright stems. Flowers average 6-8" long and up to 10" long on vigorous shoots. The habit is upright and tidy, like Funky Fuchsia™.

USDA Hardiness Zone: 5	AHS Heat Zone: 9	Height: 4-6'	Spread: 4-5'
Exposure: Full Sun	Shape: Upright		

Sapphire Surf™ Bluebeard

Caryopteris x clandonensis 'Blauer Splat'

This compact, low-maintenance shrub produces a swell of stunning blue flowers from top to bottom in late summer and fall when few other plants are blooming. The habit is lower growing than most *Caryopteris* so it makes a colorful groundcover. Sapphire Surf™ is deer and drought resistant. Selected by Kordes Nursery in Germany.

USDA Hardiness Zone: 5	AHS Heat Zone: 9
Height: 2'	Spread: 3'
Exposure: Full Sun	Shape: Spreading

Fiber Optics® Buttonbush

Cephalanthus occidentalis 'Bailloptics' PP29,475

Fiber Optics® is a distinct improvement over the coarser species that grows twice the size of this compact selection. Native from Florida to Mexico and north to Nova Scotia and Ontario, buttonbush is quite happy in moist conditions, tolerating flooding and wet spring soil. As such it is often used in wetland restoration work, along streams and pond banks. It's also a great plant for low areas in the landscape that don't dry out until late in the season. Conversely, it grows well without excessive moisture in our Minnesota trial block. It has exceptional wildlife benefits and the seed is eaten by waterfowl. Selected by Bailey Nurseries. (CPBRAf)

USDA Hardiness Zone: 4	AHS Heat Zone: 9
Height: 5-6'	Spread: 5-6'
Exposure: Full Sun	Shape: Compact, rounded

A close-up photograph of several red dogwood branches. The branches are thin, smooth, and have a vibrant red color. They are arranged in a way that creates a sense of depth, with some branches in sharp focus and others blurred in the background. The lighting is soft, highlighting the texture of the bark.

DOGWOOD

COLLECTION

year-round interest

CAYENNE DOGWOOD

Baton Rouge™ Dogwood

Cornus alba 'Minbat'

Selected for its naturally compact, bushy habit and vivid red stems, Baton Rouge™ offers amazing year-round interest. White spring flowers are followed by white berries attractive to birds. Medium green foliage transforms to a brilliant reddish-purple hue in autumn. Stems turn bright red in winter making a spectacular display. Selected as a sport of *Cornus alba* 'Elegantissima'. From Minier Nursery in France.

USDA Hardiness Zone: 3

AHS Heat Zone: 7

Height: 4-5'

Spread: 4-5'

Exposure: Full Sun

Shape: Upright, rounded

DOGWOOD COLLECTION

FAST FINISHING

WINTER INTEREST

Cayenne Dogwood

Cornus amomum 'Cayenne'

Discovered in Fancy Gap, VA, this native selection stands out because the bright red stems shine all winter, even in warmer winter areas. Fresh green foliage looks good all summer and porcelain blue berries form in late summer. Good orange-red fall foliage. Appears to be Japanese beetle resistant in Georgia. Disease and canker-resistant. Like its cousins, Cayenne is well-suited to moist areas and is good in shrub borders, massed in moist areas and for wetland mitigation. Selected by Plant Introductions, Inc.

USDA Hardiness Zone: 4	AHS Heat Zone: 9
Height: 6-8'	Spread: 8-10'
Exposure: Full Sun	Shape: Rounded to spreading

Firedance™ Dogwood

Cornus sericea 'Bailadeline'

Firedance™ is similar to 'Isanti' but has a much more compact, uniform habit. Our trials also show Firedance™ has fewer problems than the species. White flowers in spring are followed by pretty white berries that are attractive to birds. The foliage turns a nice red-purple color in fall followed by red stems in winter, giving multi-season interest. It is tolerant of moist conditions, is suitable for rain gardens and good on slopes to hold soil in place. Discovered by Terry Schwartz of Bailey Nurseries.

USDA Hardiness Zone: 2	AHS Heat Zone: 7
Height: 3-4'	Spread: 4-5'
Exposure: Full Sun	Shape: Compact, mounded

Neon Burst™ Dogwood

Cornus alba 'ByBoughen' PP27,956

This new Tatarian dogwood from Bylands Nursery in British Columbia has attractive chartreuse foliage and is a compact selection growing 4-5' tall. It has good sun and heat tolerance, retaining bright leaf color throughout summer. New leaves are tinged with bronze and the stems have a rich red hue early in the season. Fall foliage becomes a rainbow of purple, red, yellow and orange. In winter the stems turn glossy scarlet red. (®CA)

USDA Hardiness Zone: 2

AHS Heat Zone: 7

Height: 4-5'

Spread: 4-5'

Exposure: Full Sun to Part Shade

Shape: Mounded

NEW 2020

Autumn Inferno™ Cotoneaster

Cotoneaster 'Bronfire' PP30,493

Discovered at Bron & Sons Nursery in British Columbia, this new *Cotoneaster* is a natural cross between *C. lucidus* and *C. apiculatus*. It has many of the attributes of *C. lucidus* that we so love for a hedge - great form, easily pruned, great foliage all season long plus great fall color. But what we really love about Autumn Inferno™ is the small red berries formed along the stems in fall. The berries stay on the plant until the birds come and take them, no mess involved. Perfect as a pruned formal hedge or let it go natural. Just enough height to block off your annoying neighbors.

USDA Hardiness Zone: 5

AHS Heat Zone: 7

Height: 5-6'

Spread: 4-5'

Exposure: Full Sun to Part Shade

Shape: Upright, arching

Cool Splash® Dwarf Bush Honeysuckle

Diervilla sessilifolia 'LPDC Podaras' PP19,391

Cool Splash®, the first variegated *Diervilla*, has bright white leaf margins that remain bright and clean until the first frost. Bunches of yellow blossoms adorn the plant in June and July. Easy to grow in a variety of soils as long as the soil is not bone dry. Cool Splash® is a densely branched shrub that forms underground suckers, developing colonies over time. Use in lightly shaded areas or mass plantings in full sun for a spectacular effect. Found by Peter Podaras.

USDA Hardiness Zone: 4

AHS Heat Zone: 7

Height: 2.5-4.5'

Spread: 2.5-4.5'

Exposure: Full Sun to Part Shade

Shape: Compact, mounded

DISTYLIUM COLLECTION

the multi-use evergreen

FIRST EDITIONS® | 2020 CATALOG

CINNAMON GIRL™

- Low growing
- Small leaves like a boxwood but much more disease resistant
- Leaves start with subtle purple and mature to beautiful blue-green

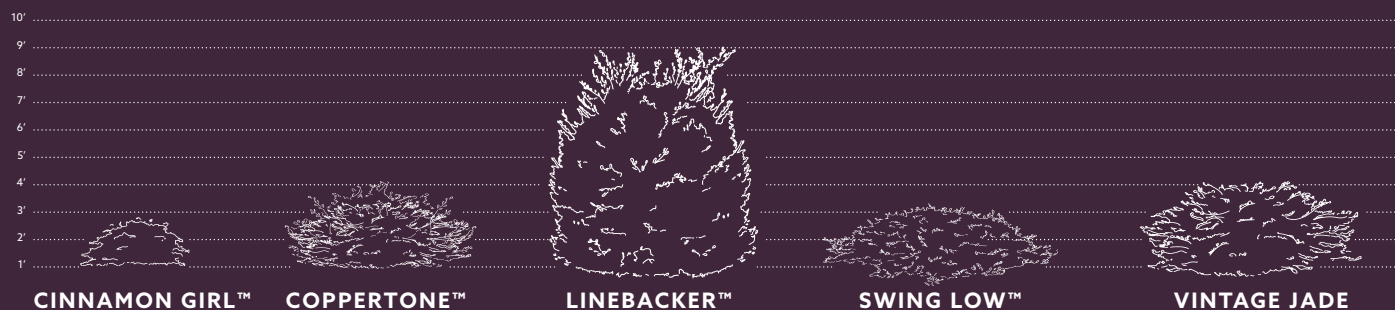

PERFECT FOR: Low hedging

COPPERTONE™

- This mid-size, rounded distylium stands out with colorful foliage
- Leaves emerge coppery red and mature to powdery blue-green

PERFECT FOR: Landscape beds

VINTAGE JADE

- Distinctly layered branches
- Dark green foliage
- Easily pruned for multiple uses

PERFECT FOR: Understory planting, mass planting

LINEBACKER™

- Upright evergreen hedging
- Leaves emerge red and mature to intense glossy green

PERFECT FOR: Screening and tall hedges

SWING LOW™

- True ground cover, grows knee-high and very dense

PERFECT FOR: Mass planting

DISTYLIUM COLLECTION

1- Cinnamon Girl® Distylium

Distylium 'PIIDIST-V' PP27,631

Cinnamon Girl® has smaller foliage and a more refined look than other distylium on the market, so it is an excellent alternative to boxwood and other evergreen plants beleaguered by insects and diseases in the south. Plum-purple new growth turns to blue-green as the leaves mature. In 2015, it came through winter with no burn while other varieties had moderate to severe dieback. Definitely our most cold hardy distylium to date. (CPBRAFF)

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 2-3'	Spread: 3-4'
Exposure: Full Sun to Part Shade	Shape: Rounded to spreading

2- Coppertone™ Distylium

Distylium 'PIIDIST-III' PP25,304

Coppertone™ is a mid-sized rounded evergreen with coppery-red new foliage that matures to blue-green. At 3-4' tall and 4-5' wide, it is a good choice for landscape beds.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 3-4'	Spread: 4-5'
Exposure: Full Sun to Part Shade	Shape: Rounded to spreading

2

1- Linebacker™ Distylium

Distylium 'PIIDIST-IV' PP25,984

This upright evergreen takes on the shape of a white oak whiskey barrel in youth and matures into an excellent screening or hedge plant. Reddish new growth matures to lustrous dark green. Foliage does not thin out in the center of the plant. With no pests or diseases to trouble it, Linebacker™ is becoming a hot selling evergreen for screening and hedges. Looks impressive in #7 and larger containers.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 8-10'	Spread: 6-8'
Exposure: Full Sun to Part Shade	Shape: Upright

2- Swing Low™ Distylium

Distylium 'PIIDIST-VI' PP29,779

We selected this distylium because of its habit. Low growing at 2-3' tall and spreading 4-6' wide, Swing Low™ is a perfect evergreen prostrate groundcover. Blue-green leaves are densely arranged on horizontal branches. Like all First Editions® distylium, Swing Low™ is an adaptable plant that can be used in multiple landscape applications. It adapts well to pruning and is disease and insect resistant.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 2-3'	Spread: 4-6'
Exposure: Full Sun to Part Shade	Shape: Spreading

2

2

2

Vintage Jade Distylium

Distylium 'Vintage Jade' PP23,128

Vintage Jade was the first Distylium in First Editions® and has become one of the best-selling plants in the south. This remarkable plant is bulletproof and perfectly suited for large scale landscapes as well as homeowner use. This variety has layered branches and forms an intermediate spreading mound in the landscape, making it perfect for covering large areas. Lustrous dark green foliage looks good all season long.

USDA Hardiness Zone: 7	AHS Heat Zone: 9

----------------------------------	------------------

Lotus Moon™ Pearlbush

Exochorda x macrantha 'Bailmoon'

This spring bloomer is covered in white round flower buds resembling a string of pearls. Buds open to clear white blooms that completely cover the plant in April and May, attracting early butterflies. Flowers are borne on previous year's growth so prune right after flowering. Lotus Moon™ has bright green foliage on compact, upright, mounded plants. Deer resistant and low maintenance in the landscape, it grows well from Minnesota to Georgia. Bred by Don Selinger and introduced by Bailey Nurseries.

USDA Hardiness Zone: 3

AHS Heat Zone: 7

Height: 4-5'

Spread: 3-4'

GARDENIA COLLECTION

fragrant rebloom

FIRST EDITIONS® | 2020 CATALOG

Double Mint Gardenia

Gardenia jasminoides 'Double Mint' PP23,507

Compact, rounded growth habit with double 2" fragrant flowers that bloom all summer long. No other double comes close to matching Double Mint in rebloom capacity. Lustrous dark foliage. Double Mint grows to a maximum of 3' in height and spread, making this compact plant perfect for smaller spaces and containers where the fragrance can be enjoyed at close range. Makes an excellent retail presentation. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 2.5-3'

Spread: 2.5'-3'

Exposure: Full Sun to Part Shade

Shape: Upright, rounded

Sweet Star® Gardenia

Gardenia jasminoides 'PIIGA-III' PP29,448

Blooming into late summer and early fall, Sweet Star® is covered in single flowers starting early May. Excellent rebloom throughout summer. Flowers are followed by pretty orange fruit. Plants are nicely rounded with glossy green leaves and stay very compact in habit. Sweet Star® originated from cold hardy wild collected *Gardenia jasminoides* seed from the Beijing Botanical Garden. Reliably cold hardy in zone 7, it came through the record-setting 2013-14 winter in Athens, GA with minimal frost damage. Makes up quickly in production. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 3-5'	Spread: 4-5'
Exposure: Full Sun to Part Shade	Shape: Compact, mounded

Sweet Tea™ Gardenia

Gardenia jasminoides 'PIIGA-II' PP27,258

This cross between Double Mint and Pinwheel™ produced a plant with the best features of both parents. With tennis ball size double flowers and excellent cold hardiness this heavy rebloomer has elegant, densely scented flowers. At 3-5' tall and wide, Sweet Tea™ is more upright and larger than Double Mint. It is also more winter hardy. In 2013-2014 this selection survived 4-6°F in an above ground container with no injury. That's saying something since many other gardenias suffered severe damage during the same winter. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 3-5'	Spread: 3-5'
Exposure: Full Sun to Part Shade	Shape: Rounded

NEW 2020

Tianshan™ Seven-son Flower

Heptacodium miconioides 'Minhep'

While bred in France, this new cultivar is named after the mountain range in China where the species is native. Clusters of fragrant, creamy-white flowers appear in late summer, with each whorl containing 7 flowers. The blooms are followed in autumn by unusual purplish-red fruits. What makes this variety unique is its compact habit, growing only 8-12', spreading only 5-7'. This small plant is well branched and forms a rounded, upright shrub or small tree with dark green shiny foliage that turns yellow in late fall. Exfoliating bark is very attractive in the winter. Use as a feature plant or as an informal hedge.

USDA Hardiness Zone: 5	AHS Heat Zone: 9	Height: 8-12'
Spread: 5-7'	Exposure: Full Sun to Part Shade	Shape: Upright arching

HIBISCUS COLLECTION

color for months

Bali™ Hibiscus

Hibiscus syriacus 'Minfren'

Semi-double pure white flowers are highlighted with a bold purple-red center. Flowers are 3-4" in diameter. Bred by Minier Nursery in France.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-8'	Spread: 4-7'
Exposure: Full Sun	Shape: Upright

Fiji™ Hibiscus

Hibiscus syriacus 'Minspot'

Medium pink buds give way to 3" to 4" flowers with a unique pattern, which slowly fades to light pink. A splash of deep red colors the center. Bred by Minier Nursery in France.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-8'	Spread: 4-7'
Exposure: Full Sun	Shape: Upright

Hawaii™ Hibiscus

Hibiscus syriacus 'Minsygrbl1'

Large showy blossoms 3-4" diameter are a lovely blue accentuated with a red-purple heart. Bred by Minier Nursery in France.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-8'	Spread: 4-7'
Exposure: Full Sun	Shape: Upright

Tahiti™ Hibiscus

Hibiscus syriacus 'Mineru'

Semi-double deep pink-purple flowers are accentuated with a deep red center. Blooms July-September with 3-4" diameter flowers bringing welcome color to the summer landscape. Bred by Minier Nursery in France.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-8'	Spread: 4-7'
Exposure: Full Sun	Shape: Upright

French Cabaret™ Blush Hibiscus

Hibiscus syriacus 'Mindoub1' PP27,840

French Cabaret™ is the first in a series of sterile doubles from French breeder Corinne Liquiere at Minier Nursery in France. Dark pink flower buds open to a delicate blush pink with shades of white. Large, double, pompom flowers bloom profusely from July to October. Compact in size with an upright habit. Heat tolerant, drought tolerant and adapted to alkaline soils. Appears to set very little viable seed.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-8'	Spread: 4-7'
Exposure: Full Sun	Shape: Upright

French Cabaret™ Red Hibiscus

Hibiscus syriacus 'Mindour 1' PP30,101

This is the second double Hibiscus from Minier Nursery. Like its cousin, French Cabaret™ Blush, it is upright in habit and a vigorous grower. For eight weeks in summer, French Cabaret™ Red has clusters of three to five richly saturated red double flowers that resemble carnations. Deep red flower buds open to 2" diameter pompom flowers with sterile seed.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-8'	Spread: 4-7'
Exposure: Full Sun	Shape: Upright

Summer Ruffle™ Hibiscus

Hibiscus syriacus 'Aarticus' PP29,104

Aptly named, this variegated hibiscus has blue green foliage with creamy white margins. Dark pink to lavender flowers add to the show in summer. At 3-4' in height and width, this is a great feature plant for smaller gardens or in patio containers. Discovered by Steve Bruin at Lincoln Nurseries in Michigan. (CPBRAFF)

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 3-4'	Spread: 3-4'
Exposure: Full Sun	Shape: Upright

BERRY WHITE® HYDRANGEA - FALL COLOR

HEDGE / SCREEN

FALL / WINTER INTEREST

FAST FINISH

Light-O-Day® Hydrangea

Hydrangea macrophylla 'Bailday'

This elegant lacecap hydrangea stands out with remarkably refined, pure white variegation. The flower heads have a ring of bright white sterile flowers while the inner blooms are glowing blue or pink depending on soil pH. The dramatic blooms coupled with clean, bright foliage naturally draw attention and make this an outstanding feature plant in the garden or in containers. Selected by Bailey Nurseries.

USDA Hardiness Zone: 5

AHS Heat Zone: 9

Height: 3-5'

Spread: 3-5'

Exposure: Morning Sun, Part Shade

Shape: Rounded

Berry White® Hydrangea

Hydrangea paniculata 'Renba' PP28,509

This long-awaited introduction is a step forward in *paniculata* breeding. With strong, upright stems and large cone-shaped flower panicles that stay upright, this plant is a summer stunner. Like the other *paniculatas* from Mr. Renault at Pépinières Renault, the flower color starts out white in July then progresses to dark pink. Coloring occurs from the bottom and progresses to the top of the panicle. Berry White® blooms a little later than Strawberry Sundae® and about the same time as Vanilla Strawberry™. Color shades can vary according to location, climate and type of soil. Our growers like this plant, and we think you will, too.

USDA Hardiness Zone: 3

AHS Heat Zone: 8

Height: 6-7'

Spread: 4-5'

Exposure: Full Sun to Part Shade

Shape: Upright

HYDRANGEA COLLECTION

FIRST EDITIONS® | 2020 CATALOG

Diamond Rouge® Hydrangea

Hydrangea paniculata 'Rendia' PP24,667

This variety has abundant, long lasting, rounded flower heads that start white and progress to pink, intense raspberry red and finally wine red. Flowers start blooming in July and take on red coloration earlier in the season than other pink *paniculatas*. Like other *paniculatas* that change from white to shades of pink or red, flower color is best in the fall when night temperatures are 10 degrees cooler than day temperatures. Compared to Strawberry Sundae®, Diamond Rouge® is slightly bigger and has distinct raspberry-red flowers that color earlier in the season. Benefits from multiple prunes in production to produce strong stems. Flower color varies based on climate and growing conditions. Bred by Jean Renault in France. (CPBRAf, ®CA)

USDA Hardiness Zone: 3

AHS Heat Zone: 8

Height: 4-5'

Spread: 3-4'

Exposure: Full Sun to Part Shade

Shape: Compact, upright

Strawberry Sundae® Hydrangea

Hydrangea paniculata 'Rensun' PP25,438

Strawberry Sundae® is another outstanding selection from French breeder Jean Renault. This compact selection is similar to Vanilla Strawberry™ but much more compact. Flowers emerge creamy white in mid-summer and change to pink as night temperatures cool down. With its compact habit this hydrangea adds striking flowers to small spaces and is nicely proportioned for patio containers. The color lasts well into fall. Excellent for fresh cut and dried flower arrangements. Flower color varies based on climate and growing conditions. (CPBR #4609)

USDA Hardiness Zone: 3

Compact, upright

1

1- Tickled Pink® Hydrangea

Hydrangea paniculata 'HYPMAD II' PP18,500

You'll be tickled pink by the extraordinary flowers on this hydrangea. Each bloom is completely covered by the sterile flower petals and each petal recurves giving the blossoms a full, frilly, lacy appearance. The blooms begin white before turning rosy pink. The habit is upright and compact with a height of just 4-6' so it is a good fit for small spaces. Bred by Dr. Michael Dirr at the University of Georgia.

USDA Hardiness Zone: 3	AHS Heat Zone: 8	Height: 4-6'
Spread: 5-6'	Exposure: Full Sun to Part Shade	Shape: Broad mound

2- Vanilla Strawberry™ Hydrangea

Hydrangea paniculata 'Renhy' PP20,670

The enormous flower heads are a blend of vanilla and strawberry, held upright on red stems. Flowers emerge creamy white in midsummer, change to pink as the night temperatures drop and finally turn strawberry red. New blooms emerge as older blooms change color, giving the plant a multicolored effect in late summer and early fall. The red coloring lasts at least 3-4 weeks. Plants grow upright, then cascade later in the season. Excellent for fresh cut and dried flower arrangements. Flower color varies based on climate and growing conditions. Bred by Jean Renault in France. (CPBR #3963)

USDA Hardiness Zone: 3	AHS Heat Zone: 8	Height: 6-7'
Spread: 5-6'	Exposure: Full Sun to Part Shade	Shape: Upright

2

2

White Diamonds® Hydrangea

Hydrangea paniculata 'HYPMAD I' PP19,082

With a commanding presence in the summer and fall garden, White Diamonds® is an exceptional compact hydrangea with glistening white panicles that are held upright and eventually fade to parchment and pink. Smaller and more manageable than most *H. paniculata*, White Diamonds® boasts dark green leathery foliage that displays increased heat and drought tolerance. Use as an anchor in the mixed border, plant as a hedge, or in a large grouping for a magnificent effect. Bred by Dr. Michael Dirr at the University of Georgia.

USDA Hardiness Zone: 3	AHS Heat Zone: 8
Height: 4-6'	Spread: 5'
Exposure: Full Sun to Part Shade	Shape: Compact, dense

Jetstream™ Hydrangea

Hydrangea quercifolia 'PIIHQ-I' PP25,319

Jetstream™ is a quantum leap in oakleaf hydrangea introductions with a dense, compact, non-flopping habit. The lustrous dark green foliage is resistant to leaf spot and turns fantastic orange-red in autumn. Flowers, held high on strong stems, are a beautiful white aging to pink. Jetstream™ is a classic native flowering shrub for the garden, grouping and massing. Exfoliating tawny-brown bark adds winter interest, as do the dried flower heads. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 5	AHS Heat Zone: 8
Height: 5-6'	Spread: 4-5'
Exposure: Full Sun to Part Shade	Shape: Compact, rounded

HYPERICUM COLLECTION

Cobalt-n-Gold™ Hypericum

Hypericum kalmianum 'PIIHYP-I' PP25,318

This mounded grower has blue-silver foliage blanketed with 3/4" sunny yellow flowers in late spring and early summer. In fall, the leaves transform to yellow, orange, and red and reveal an attractive exfoliating bark. This plant thrives in full sun and well-drained soil and is adaptable in many parts of the country, growing reliably from Georgia to Minnesota. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 4

AHS Heat Zone: 7

Height: 2-3'

Spread: 4-5'

Exposure: Full Sun

Shape: Mounded

HYPERICUM COLLECTION

Mocca Hypericum

Hypericum inodorum 'Kolmamoc'

Bright yellow flowers appear in spring followed by beautiful, warm, brown-red berries in fall.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 2.5-3'	Spread: 2.5-3'
Exposure: Full Sun	Shape: Upright rounded

Pumpkin Hypericum

Hypericum inodorum 'Kolmapuki' PP24,576

Covered with yellow flowers in spring, followed by clusters of glowing orange berries.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 2.5-3'	Spread: 2-2.5'
Exposure: Full Sun	Shape: Upright, rounded

Red Fame Hypericum

Hypericum inodorum 'Kolmaref'

Bright yellow spring flowers are followed by even brighter, long lasting, fire engine red berries that pair perfectly with autumn oranges, maroons and yellows. Berries also show well against dark green foliage in late summer to early fall.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 2.5-3'	Spread: 2.5-3'
Exposure: Full Sun	Shape: Upright, rounded

Red Star Hypericum

Hypericum inodorum 'Kolmarest' PP21,313

Red Star is covered with yellow blossoms in spring and clusters of red berries in late summer or fall.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 2.5-3'	Spread: 2-2.5'
Exposure: Full Sun	Shape: Upright, rounded

Straight & Narrow® Japanese Holly

Ilex crenata 'PIIC-I' PP29,578

We've been trialing this Japanese holly a long time to be certain it lives up to its name. Straight & Narrow® is exactly that. Now 6' tall in our trials and 18" wide, Straight & Narrow® is so much better than 'Sky Pencil' and 'Sky Sentry'. This plant has strong branches that remain upright and don't splay out as it ages or faces the elements. Leaves are flat, not cupped, shiny dark green and remain nice looking through winter. Male. Destined to become THE columnar Japanese holly of choice for retail and landscape. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 6	AHS Heat Zone: 8
Height: 6-8'	Spread: 2-3'
Exposure: Full Sun to Part Shade	Shape: Upright

Wildfire™ Winterberry

Ilex verticillata 'Bailfire'

This female selection offers multi-season interest with pure white flowers, dark green foliage and an abundance of large, bright red fruit. Berries are 2X bigger than 'Red Sprite'. Fall and early winter provide stems ideal for floral or seasonal displays. Rounded habit creates a wonderful foundation plant, specimen or hedge. 'Jim Dandy' is needed for pollination and berry set. A selection made by Gordie Bailey of Bailey Nurseries.

USDA Hardiness Zone: 4	AHS Heat Zone: 9
Height: 8-10'	Spread: 8-10'
Exposure: Full Sun	Shape: Rounded

Pink Frost Florida Anise-tree

Illicium floridanum 'Pink Frost' PP21,287

A vigorous evergreen shrub for shady locations, Pink Frost has lovely variegated white and green foliage that turns rosy-pink in cold weather. Maroon-red flowers bloom for 4-6 weeks in spring. The foliage has a pleasant gin and tonic scent. Loves moist, but well-drained soils. Introduced by Plant Introductions, Inc.

USDA Hardiness Zone: 7	AHS Heat Zone: 9	Height: 6-10'	Spread: 6-10'
Exposure: Shade	Shape: Rounded		

BananAppeal® Small Anise Tree

Illicium parviflorum 'PIIIP-I' PP28,887

This compact, well-behaved *Illicium* has golden-yellow foliage and keeps a nice mounded form as it ages. Leaves are wider than 'Florida Sunshine' and it's a better grower in production. Unlike 'Florida Sunshine', BananAppeal® doesn't send out long gangly shoots, and plants are more compact and disease resistant. With anise-scented foliage, it is a perfect accent plant in shade gardens, maintaining its small stature and luminescent yellow-gold foliage. No suckers to date. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 3-4'	Spread: 3-4'
Exposure: Shade	Shape: Upright, round

NEW 2020

Love Child™ Sweetspire

Itea virginica 'Bailteaone' PPAF

A small form of Virginia Sweetspire, blooming in spring with white racemes radiating out from a rounded plant with bright green foliage. We selected this seedling for its compact growth habit and heavy bloom May - June. Of course the fragrance is lovely and in autumn the foliage turns gorgeous shades of burgundy. The small size makes it perfect for smaller gardens and foundation plantings. A versatile shrub for sun or shade. Thrives in moist soil but somewhat drought tolerant too. Deer resistant.

USDA Hardiness Zone: 6

AHS Heat Zone: 9

Height: 3-4'

Spread: 3-4'

Exposure: Full Sun to Part Shade

Shape: Mounded

MAGIC COLLECTION

 GREEN LEAF

FIRST EDITIONS® | 2020 CATALOG

1- Coral Magic Crapemyrtle

Lagerstroemia 'Coral Magic' PP23,922

Coral Magic forms a beautiful rounded, dense shrub, loaded with salmon-pink flowers in early summer. The new foliage is a glossy reddish color, eventually becoming dark green throughout the summer. Coral is the earliest in the Magic series to bloom and is a heavy rebloomer if stage pruned.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 8-10'	Spread: 6-8'
Exposure: Full Sun	Shape: Rounded

2- Plum Magic Crapemyrtle

Lagerstroemia 'Plum Magic' PP23,518

Plum Magic forms a dense shrub covered in fuchsia pink blooms. The foliage on this rounded shrub emerges plum-purple in color and eventually matures to rich dark green, setting off the bright flowers. Plum blooms just before Purple and is a heavy rebloomer if stage pruned.

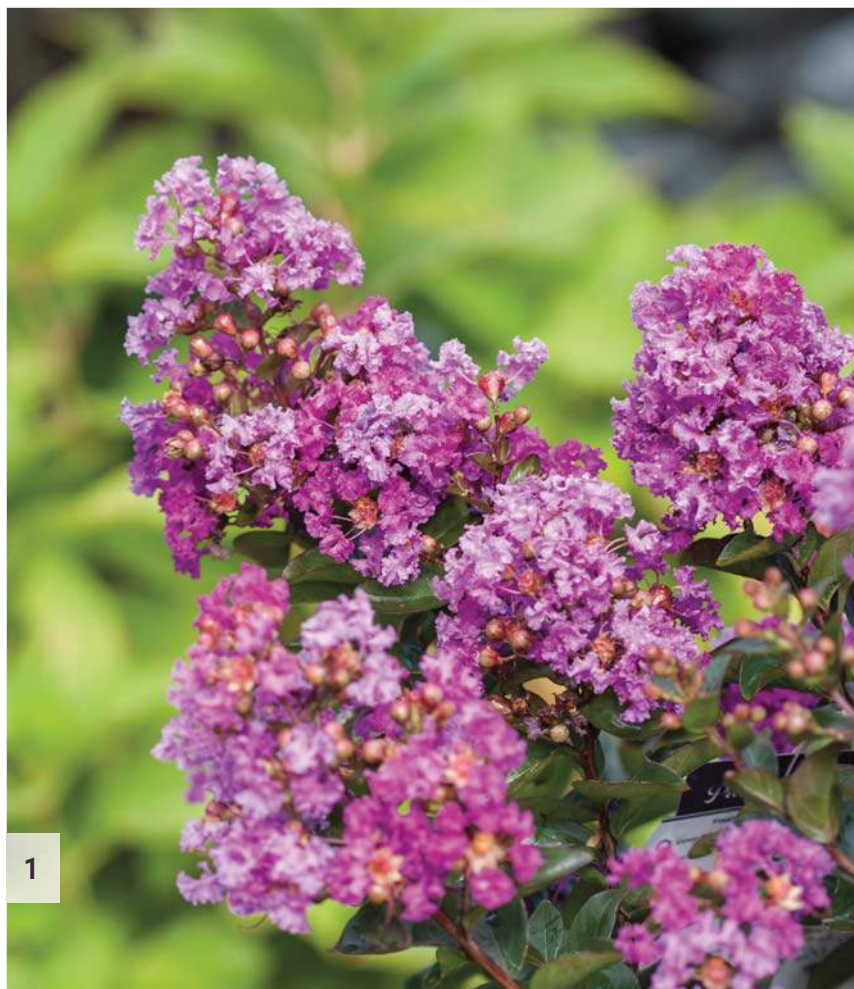

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 10-12'	Spread: 6-8'
Exposure: Full Sun	Shape: Upright rounded

2

GREEN LEAF

1- Purple Magic Crapemyrtle

Lagerstroemia 'Purple Magic' PP23,906

Purple Magic is our best-selling green leaf variety. Dark purple flowers cover the rounded, dense shrub from base to tip. Glossy green leaves remain disease free all season. This blooming machine flowers a few days later than Plum and is a heavy rebloomer if stage pruned.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 7-8'	Spread: 7-8'
Exposure: Full Sun	Shape: Rounded

2- Ruffled Red Magic™ Crapemyrtle

Lagerstroemia 'PILLAG-VII' PP27,303

Talk about red AND ruffled! This crapemyrtle has distinctly different, carnation-like, glowing red flowers that show beautifully against the lustrous dark green foliage. Foliage turns orange-red in fall. The habit is upright, but compact with dense branching, making a nice large shrub or small tree. It is also highly resistant to *Cercospora* leaf spot and powdery mildew, which is a major breeding accomplishment in red crapes.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
Height: 12'	Spread: 8'
Exposure: Full Sun	Shape: Upright

2

MAGIC COLLECTION

DARK LEAF

1- Lunar Magic® Crapemyrtle

Lagerstroemia 'Baillagone' PP30,360

This beautiful crape combines rich purple-black foliage, loads of solid white flower clusters on red stems and a beautiful upright oval shape. Compared to Moonlight Magic™, Lunar Magic® is much more generous in flower production and more intermediate in stature. This prolific bloomer starts flowering in June and can be cycle pruned to bring plants into flower every 35-45 days for sales from early summer through fall. The 2017 growing season was a real test for *Cercospora* and powdery mildew with many varieties succumbing to the unusually high disease pressure, but Lunar Magic® came through unscathed. Lunar Magic® had a very small amount of tip dieback in winter 2016 and no tip dieback in winter 2017. Deer resistant.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 6-10'

Spread: 4-8'

Exposure: Full Sun

Shape: Upright, oval

2- Moonlight Magic™ Crapemyrtle

Lagerstroemia 'PILLAG-IV' PP25,478

A sister seedling of Midnight Magic™ with superb foliage and white flowers. The habit is upright and vase-shape making it a beautiful small tree. Good resistance to leaf spot.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 8-12'

Spread: 4-6'

Exposure: Full Sun

Shape: Upright, vase shaped

1

2

MAGIC COLLECTION

DARK LEAF

1- Sunset Magic™ Crapemyrtle

Lagerstroemia 'PIILAG-IX' PP29,325

Talk about a sizzling combination! This compact beauty has large red inflorescences that cover the plant when they bloom. Sunset Magic™ flowers more heavily than other reds with dark foliage. Deep black-purple leaves are flat, lustrous and hold their dark color into late summer. Foliage has been-disease free to date.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 5-10'

Spread: 4-8'

Exposure: Full Sun

Shape: Upright

2- Twilight Magic™ Crapemyrtle

Lagerstroemia 'PIILAG-VIII' PP27,194

The combination of deep plum-colored foliage and pink flowers is stunning. This large shrub/small tree really stands out in the landscape when it blooms. Flower production is profuse compared to Delta Jazz™, and its disease resistance is excellent. Even when not in flower, the dark foliage is handsome all on its own. Very good mildew resistance. An excellent alternative to purple leaf plums.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 16'

Spread: 8'

Exposure: Full Sun

Shape: Upright

Straight Talk™ Privet

Ligustrum vulgare 'Swift'

A natural substitute for 'Sky Pencil' holly in colder climates, Straight Talk™ is only 2' wide and tightly upright. It can be used as vertical accent or grouped for hedging. In addition to being cold hardy and drought tolerant, it's easy to grow in a wide range of soils and tolerates urban conditions. Minimal seed production after five years in Minnesota trials. Deciduous. Found by Mike Jeronimus of Green Acres Nursery in Golden, CO.

USDA Hardiness Zone: 4

AHS Heat Zone: 8

Height: 12'

Spread: 2-4'

Exposure: Full Sun to Part Shade

Shape: Upright

1

1- Crimson Fire™ Fringe Flower

Loropetalum chinense var. *rubrum* 'PIILC-I' PP25,534

Crimson Fire™ is on fire, and with good reason! It is the first truly compact red-leaf *Loropetalum* on the market with proven cold tolerance. When other red leaf *Loropetalum* were severely damaged in the winter of 2013-14, Crimson Fire™ came through unscathed. The winter of 2014-15 was also tough and Crimson Fire™ came through with minimal tip burn. Additionally, this well-behaved selection has controlled growth and doesn't throw out rangy shoots. Bright pink flowers in spring are highlighted by the dark foliage.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
------------------------	------------------

Height: 4'	Spread: 4-5'

Exposure: Full Sun to Part Shade	Shape: Mounded
----------------------------------	----------------

2

2- Sparkling Sangria™ Fringe Flower

Loropetalum chinense var. *rubrum* 'PIILC-II' PP25,470

Sparkling Sangria™ is a heavy-weight alternative to Crimson Fire™, forming a larger shrub suitable for screening, hedges, groupings and masses. Loads of shocking red flowers light up plants in spring. A seedling of Ever Red® *Loropetalum* that is more easily propagated and better in production. Impressive in #7 and larger containers.

USDA Hardiness Zone: 7	AHS Heat Zone: 9
------------------------	------------------

Height: 10'	Spread: 10'
-------------	-------------

Exposure: Full Sun to Part Shade	Shape: Rounded to spreading
----------------------------------	-----------------------------

3

3- Snow White™ Mockorange

Philadelphus 'Snowwhite Fantasy' PP13,774

A repeat-flowering hybrid, Snow White™ boasts 2" double flowers borne in clusters that bloom abundantly in spring and then again in summer. A versatile shrub with pure white, deliciously fragrant flowers. Introduced by Plants Nouveau.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
------------------------	------------------

Height: 5-6'	Spread: 4-5'
--------------	--------------

Exposure: Full Sun	Shape: Upright, rounded
--------------------	-------------------------

Amber Jubilee™ Ninebark

Physocarpus opulifolius 'Jefam' PP23,177

Amber Jubilee™ was selected for its striking new foliage in glowing tones of orange, yellow and gold. Rounded and dense in habit, this shrub with its bold array of colors makes an eye-catching hedge. Delicate white blooms are produced in spring. Summer foliage is green. Can be stage pruned in production through July to force colorful new growth. Fall foliage is highlighted with tones of red and purple, making this mildew resistant ninebark appealing over the entire season. Plant in full sun for best performance. Result of a controlled cross between 'Darts Gold' and Diablo® ninebark. Selected at Jeffries Nursery in Manitoba, Canada. (CPBR #4765, ®CA)

USDA Hardiness Zone: 2

AHS Heat Zone: 7

Height: 5-7'

Spread: 4-6'

Exposure: Full Sun

Shape: Upright, rounded

NINEBARK COLLECTION

Little Devil™ Ninebark

Physocarpus opulifolius 'Donna May' PP22,634

This improved ninebark has an upright, rounded habit and fine textured, dark foliage that sets it apart from other ninebark. It is also mildew resistant and low maintenance. It needs little to no pruning, is free from pest and disease issues and adapts to wet or dry soil. Clusters of small purplish-white flowers in June contrast nicely with the burgundy foliage. Little Devil™ is a good substitute for barberry in areas of the country where barberry may be invasive. Bred by Dr. David Zlesak.

USDA Hardiness Zone: 3

AHS Heat Zone: 7

Height: 3-4'

Spread: 3-4'

Exposure: Full Sun

Shape: Upright, rounded

Fireside® Ninebark

Physocarpus opulifolius 'UMNHarpell' PPAF

We selected this new ninebark because of the stunning foliage. Reddish new growth matures to deep red-purple foliage that holds its color reliably all summer whereas others take on brownish tones later in the season. We trialed it in Georgia, and the summer color did not brown out. Add to that, Fireside™ didn't show any signs of powdery mildew in field and production trials in multiple sites 2015-2017. The leaf size is intermediate; bigger than Little Devil™ but smaller than Diabolo®. Pinkish-white flowers bloom in spring and foliage turns deep purple in fall. The plant habit is tidier than other *Physocarpus* with a rounded, upright shape.

USDA Hardiness Zone: 3

AHS Heat Zone: 7

Height: 5-7'

Spread: 4-6'

Exposure: Full Sun

Shape: Upright, rounded

MANDARIN TANGO™ POTENTILLA

FOUNDATION

MASS PLANTING

POLLINATOR

Crème Brûlée™ Potentilla

Potentilla fruticosa 'Bailbrule'

Add a pop of white to the landscape with this double flowering potentilla. Bright white flowers adorn this rounded shrub throughout the entire summer. Dark green foliage contrasts beautifully with the flowers. Deer resistant. Introduced by Bailey Nurseries.

USDA Hardiness Zone: 2	AHS Heat Zone: 6
Height: 3-3.5'	Spread: 2-3'
Exposure: Full Sun	Shape: Upright, rounded

Lemon Meringue™ Potentilla

Potentilla fruticosa 'Bailmeringue'

Lemon Meringue™ is loaded with light yellow double flowers that might remind you of a rose. Blooms all summer on a tidy little plant that forms a compact shrub with little pruning required. Deer resistant. Introduced by Bailey Nurseries.

USDA Hardiness Zone: 2	AHS Heat Zone: 6
Height: 2-3'	Spread: 2-3'
Exposure: Full Sun	Shape: Upright, mounded

NEW 2020

Mandarin Tango™ Potentilla

Potentilla fruticosa 'Jefman' PP29,830

The 1" round flowers are a lovely shade of orange with just a hint of red in them thanks to the parent 'Red Robin'. Beautifully compact, it forms a rounded shrub reaching only 2-3' in height and spread, making it perfect for the foundation. How many shrubs do we really have that bloom all summer like potentilla? Deer resistant. Bred by Jeffries Nurseries. (CPBRAf)

NEW 2020

Marmalade™ Potentilla

Potentilla fruticosa 'Jefmarm' PPAF

Bred by Dr. Wilbert Ronald at Jeffries Nursery near Winnipeg, Canada, you can be assured this potentilla is going to handle all that winter can throw at it. An intense shade of orange, this double flowered form adds to the 1-2-3 punch of our other potentilla cultivars in First Editions®. Very tight habit with dark green foliage, it blooms from early summer through fall and handles tough conditions. Deer resistant.

USDA Hardiness Zone: 2

AHS Heat Zone: 6

Height: 2-3'

Spread: 2-3'

Exposure: Full Sun

Shape: Upright, rounded

Purple Sunset™ Pomegranate

Punica granatum 'PIIPG-I' PP21,031

This restrained little pomegranate has great ornamental value in the landscape and in containers. With lustrous dark green foliage and a tight compact habit, it produces orange flowers and small purple fruits from spring through fall. Flowers on new growth so light tip pruning promotes more flowers and fruits. Bred by Plant Introductions, Inc.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 5'

Spread: 4'

Exposure: Full Sun

Shape: Upright-oval

Electric Lights™ Double Pink Azalea

Rhododendron 'UMNAZ 493' PP26,600

From the deciduous azalea breeding program at the University of Minnesota, this is the first double-flowered form and it is a beauty! In spring, double pink, fragrant flowers smother the plant in color. Soft green foliage turns burgundy in the fall. Plants form an upright mound in the landscape and tolerate full sun to part shade. Flower buds are hardy to -30°F. Introduced by Bailey Nurseries.

USDA Hardiness Zone: 4

AHS Heat Zone: 7

Height: 6-7'

Spread: 4-5'

Exposure: Full Sun to Part Shade

Shape: Upright rounded

Tiger Eyes® Cutleaf Staghorn Sumac

Rhus typhina 'Bailtiger' PP16,185

Tiger Eyes®, one of the three inaugural plants in First Editions®, is a beautiful golden-leafed form of cutleaf staghorn sumac. New growth is a lively chartreuse green, quickly changing to yellow. Both colors contrasting nicely with the rosy-pink leaf stems. The branches angle upward while the deeply cut leaflets drape downward. As magnificent as the summer colors are, the dramatic effect of yellow, orange and intense scarlet in autumn are unparalleled. This showy plant is a great focal point in commercial landscapes. Tiger Eyes® tolerates a wide range of soils as well as urban conditions, and is adaptable to both poorly drained soils and very dry soil. Doesn't sucker profusely and does not have heavy seed set. Discovered by Steve Jorgensen of Bailey Nurseries.

ROSE COLLECTION

FIRST EDITIONS® | 2020 CATALOG

1- Above and Beyond™ Rose

Rosa 'ZLEEltonStrack' PP24,463

This is a truly unique climbing rose for cold climates. Above and Beyond™ combines extreme cane hardiness, reliable spring flowering, vigorous growth, and a unique color in hardy roses. Orange buds open in prolific clusters of five or more apricot colored, semi-double to double flowers. Plants bloom in mid-to-late spring with sporadic repeat flowering in summer. Above and Beyond™ can be a climber or a nice large free standing shrub in colder regions. Very resistant to fungal diseases. Bred by Dr. David Zlesak.

USDA Hardiness Zone: 3

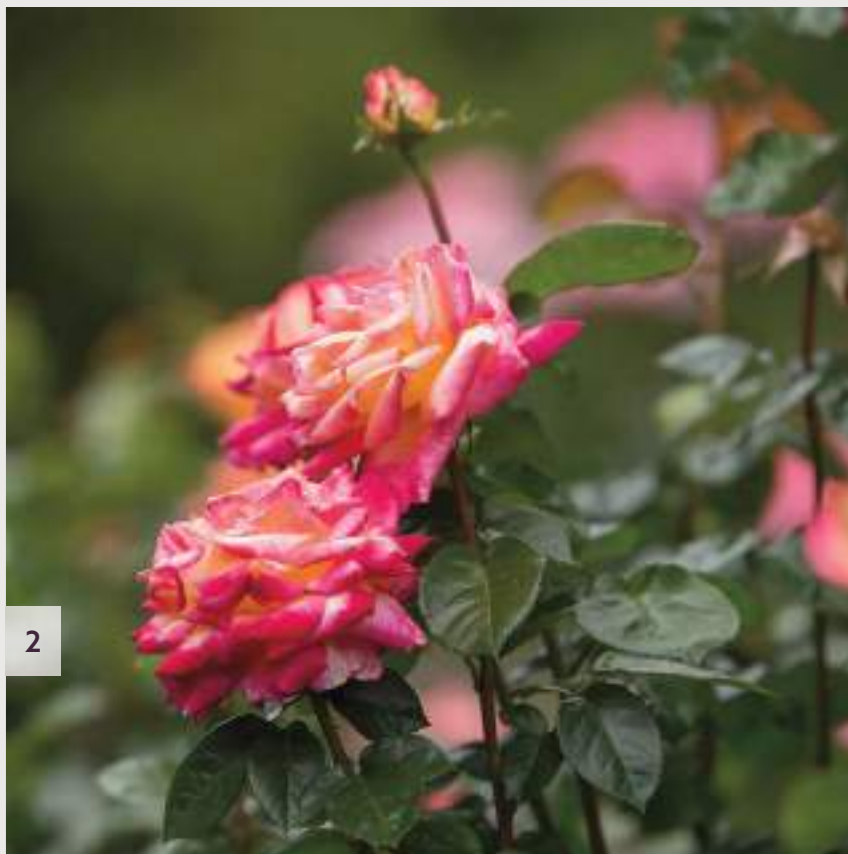

AHS Heat Zone: 7

Height: 10-14'

Spread: Varies

Exposure: Full Sun

Shape: Upright, spreading

2- Love & Peace® Rose

Rosa 'BAIpeace' PP14,731

The first award winning rose from Bailey's breeding program including the AARS® in 2002, Portland's Best Rose multiple years, and many others; Love & Peace® continues to gain notoriety for its superb blooms and disease resistance. Carmine red buds open to a warm blend of golden yellow that is edged with bright pink. Each double hybrid tea flower is incredibly large, averaging 5" in diameter, and slightly fragrant. An excellent cutting flower, this rose will rebloom throughout the summer for continuous color. Unlike many older hybrid tea roses, the habit is compact and upright with lustrous dark green leaves that provide a nice backdrop to the blooms. Own Root. (®CA)

USDA Hardiness Zone: 5	AHS Heat Zone: 10	Height: 4-5'
Spread: 3'	Exposure: Full Sun	Shape: Upright

Campfire Rose

Rosa 'CA 29' PP24,435

An exciting reblooming rose from the Canadian Artist Rose series, Campfire has exceptional hardiness combined with eye-catching blooms and bright glossy foliage on compact plants. Shapely buds with yellow and red tones open to semidouble flowers of yellow, edged in a deep rosy pink. As the season progresses, the pink edging becomes more prominent and produces an incredible smoldering blend of yellow and deep pink blooms that continue until frost. Dark green glossy foliage has excellent disease resistance; stems are smooth with only the occasional short thorns. Named in honor of Tom Thomson, one of the foremost artists in Canadian history. Own root. (CPBR #4471)

USDA Hardiness Zone: 3	AHS Heat Zone: 7
Height: 3'	Spread: 3'
Exposure: Full Sun	Shape: Upright, mounded

Lotty's Love™ Rose

Rosa rugosa 'BOC rognosnif' PP22,570

This ever-blooming, heavy blooming, rugosa rose bred by Chuck Bock won a gold medal from the American Rose Society in 2009 with one of the highest ratings ever. Lotty's Love™, named after Chuck's wife Charlotte, has clusters of semi-double cup-shaped blooms of beetroot purple suffused with magenta. The 3-4" diameter flowers have gold stamens and emit a strong cinnamon fragrance. Lotty's Love™ has the cold hardiness and salt tolerance that makes this species such a landscape favorite. Red hips, 1/2-inch in diameter, form in the fall. The dark green glossy foliage is resistant to major fungal diseases. The habit is more refined than the species.

USDA Hardiness Zone: 3	AHS Heat Zone: 10
Height: 3-3.5'	Spread: 3.5-4'
Exposure: Full Sun	Shape: Upright, oval

NEW 2020

Iceberg Alley™ Sageleaf Willow

Salix candida 'Jefberg'

First Editions® is excited to introduce Iceberg Alley™, a native plant discovered by the Memorial University of Newfoundland and Labrador Botanical Garden. The powdery, silver foliage of this small shrub will be a great addition to the landscape, adding texture and contrast when combined with other colorful shrubs. It forms a rounded shrub and does not overtake the landscape, reaching a height and spread of about 5' (a bit shorter in very cold areas of North America and a bit taller in warmer zones). It blooms in spring with a very pretty silver catkin with red stamens. As with most *Salix*, it can tolerate moist soils. Grows best in full sun sites and tolerates pruning beautifully. Consider cutting the stems in early spring for the decorative catkins.

USDA Hardiness Zone: 2

AHS Heat Zone: 6

Height: 3-6'

Spread: 3-6'

Exposure: Full Sun

Shape: Upright, rounded

Matcha Ball™ Ash Leaf Spirea

Sorbaria sorbifolia 'Levgreen' PPAF

NEW 2020

This is the perfect sized shrub for the smallest of gardens! Matcha Ball™ false spirea forms a perfect round ball of pretty fern-like foliage in a fresh shade of green (that green color reminded us of Matcha tea, thus the name). When the foliage first emerges in the spring there is a hint of color in the leaves and petioles that ranges from red to orange-peach in color, ultimately maturing to green. This variety sparsely blooms, which helps maintain the form throughout the growing season. Fall color is yellow. Prefers moist, well-drained organic soil. Tolerates full sun to some light shade. Discovered by Denis Levac of Québec, Canada.

USDA Hardiness Zone: 3	AHS Heat Zone: 7	Height: 2-3'	Spread: 3-4'
Exposure: Full Sun	Shape: Rounded		

Sundrop™ Spirea

Spiraea 'Bailcarol'

A natural hybrid of 'Goldmound' and 'Daphne', Sundrop™ was discovered by Terry Schwartz of Bailey Nurseries, Inc. Beautiful sprays of pink flowers in early summer stand out against petite, golden foliage. This natural dwarf with a rounded habit requires little or no pruning. Our trials show Sundrop™ to be hardier than most golden spirea. Foliage holds its golden-yellow color even in the summer heat.

USDA Hardiness Zone: 3	AHS Heat Zone: 7
Height: 12-15"	Spread: 2-3'
Exposure: Full Sun	Shape: Dense mound

Pink Sparkler™ Birchleaf Spirea

Spiraea betulifolia 'COURISPI01' PP27,933

If you are a fan of *Spiraea* 'Tor', you will love this new twist on *Spiraea betulifolia*. Bred in France, Pink Sparkler™ blooms in early summer with large pink flowers at the terminals of this rounded shrub. An added bonus is in the autumn, new flowers are formed and bloom along the leaf axils on each stem. These flowers are smaller, but there are more of them and add a pop of pink color to the fall landscape. Then, the leaves turn a lovely burgundy red in autumn. This plant needs very little pruning to keep its perfect rounded shape. (CPBRAf)

USDA Hardiness Zone: 3	AHS Heat Zone: 7

----------------------------------	----------------

Superstar™ Spirea

Spiraea x bumalda 'Denistar' PP22,432

This superstar is a branch sport of 'Froebelii', with a smaller more compact form. Foliage is deep green, showing off the stunning, scarlet red new growth to its best advantage. Pink blossoms grace the plant from May - August. The three-season appeal continues with an excellent bronze fall color. Discovered by Denis Levac of Québec, Canada and introduced by Bailey Nurseries.

USDA Hardiness Zone: 3	AHS Heat Zone: 8

--------------	--------------

Exposure: Full Sun	Shape: Rounded
--------------------	----------------

Firegold® Spirea

Spiraea x vanhouttei 'Levgold' PP19,308

Firegold® stands out because of its brilliant lemon-lime foliage. New growth is soft yellow changing to lemon, and finally to lime-green. White flowers, typical of the species, appear in spring along gracefully arching branches. The color is stable and at its most brilliant in full sun. This plant came to us from Denis Levac of Québec, Canada. (CPBR #2754)

USDA Hardiness Zone: 4	AHS Heat Zone: 6
Height: 4-6'	Spread: 5-7'
Exposure: Full Sun	Shape: Vase-shaped

Candy™ Coralberry

Symphoricarpos x doorenbosii 'Kolmcan' PP20,931

Plump, candy-pink berries ripen in early fall, as the last of summer's small pink flowers swell into pearls. As the leaves fall, each arching stem is adorned with berries which remain on through the winter. Compact form for the border or en masse. Bred by Peter Kolster.

USDA Hardiness Zone: 4	AHS Heat Zone: 9
Height: 2-2.5'	Spread: 2.5-3'
Exposure: Full Sun	Shape: Compact, arching

Galaxy™ Snowberry

Symphoricarpos x doorenbosii 'Kolmgala' PP20,912

Plump, bridal-white berries ripen in early fall, adding interest to the autumn and winter garden on a neat, compact plant. Bred by Peter Kolster.

USDA Hardiness Zone: 4	AHS Heat Zone: 9
Height: 2.5-3'	Spread: 2.5-3'
Exposure: Full Sun	Shape: Upright, rounded

LILAC COLLECTION

A modern
twist on
a classic
shrub

VIRTUAL VIOLET® LILAC

Virtual Violet® Lilac

Syringa 'Bailbridget' PP30,286

With shiny violet new leaves, deep purple stems, raspberry purple buds and fragrant double flowers, Virtual Violet™ is aptly named. Leaf petioles remain violet well into the summer. The habit is upright (instead of rounded) and compact. The dense habit makes it a great choice for a hedge in smaller spaces as well as a welcome addition to foundation plantings. Remarkably mildew free. This is a controlled cross between Charles Joly and two outstanding National Arboretum varieties. Bred by Don Selinger, Bailey Nurseries retiree. (CPBRAFF)

USDA Hardiness Zone: 3

AHS Heat Zone: 7

Height: 6-8'

Spread: 5-7'

Exposure: Full Sun

Shape: Upright

NEW 2020

Little Lady™ Lilac

Syringa x 'Jeflady' PPAF

Imagine the beautifully fragrant flowers of 'Miss Kim' lilac on a more compact, restrained plant. That is exactly what you have with Little Lady™. In late spring, the dark pink buds open to lilac pink, with a heady fragrance that will tickle your nose! The foliage is similar to 'Miss Kim' and is a nice fresh green. The mature size makes this plant perfect for foundation plantings, but it can also be used en masse, or as an informal hedge where you don't need a lot of height. At maturity it is about half the size of 'Miss Kim'. Rock solid hardy, it was bred on the northern plains of North America and will thrive even in zone 2. Developed by our friends at Jeffries Nursery in Canada.

USDA Hardiness Zone: 2

AHS Heat Zone: 7

Height: 4-5'

Spread: 4-5'

Exposure: Full Sun

Shape: Upright, rounded

Spring Lace Viburnum

Viburnum 'Spring Lace'

This compact, rounded viburnum would be a beautiful shrub even if it didn't bloom. But boy, does it bloom! In May, this beauty is covered in pure white, fragrant, lacy inflorescences. Sterile florets are nicely balanced with fertile flowers. The leathery, dark green leaves turn wine-red in early fall and are evergreen in mild winters. Blooms well in warmer climates. Plants are compact and well-behaved. Minimal fruit set to date. Bred by Dr. Michael Dirr at the University of Georgia.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 5'	Spread: 5'
Exposure: Full Sun to Part Shade	Shape: Rounded

Opening Day™ Doublefile Viburnum

Viburnum plicatum 'PIIVIB-II' PP28,958

With perfectly round baseball-sized flowers in April, we couldn't resist calling this beacon of spring Opening Day™. Compact plants are covered with snowball-like flowers that open with a tinge of green and quickly mature to pure white. Plants are tight in habit with dark green foliage that turns beautiful shades of cabernet in the fall. The deeply corrugated foliage is spring green and flawless through the growing season. Easy and fast to produce, this should be a production staple. Bred by Plant Introductions, Inc. (CPBRAFI)

COLLECTION

FLIP SIDE® CHASTETREE

VITEX COLLECTION

POLLINATOR

MASS PLANTING

Delta Blues™ Chastetree

Vitex agnus-castus 'PIIVAC-I' PP25,914

Delta Blues™ is the first intermediate *Vitex* on the market. Compared to 'Shoal Creek' it is about 2/3 the size, not nearly as coarse in texture and has richer blue-purple flowers. The fragrant flowers bloom from June to October in Zone 7-8. Dark green foliage is free of leaf spot, fragrant and more refined than other selections. Plants are much denser in containers and in the landscape. Can be grown as an intermediate multi-stem tree or as a shrub. Delta Blues™ adapts to acid or alkaline soils as long as the site is well-drained. It is also salt tolerant. Introduced by Plant Introductions, Inc.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
------------------------	------------------

Height: 8-10'	Spread: 8-10'
---------------	---------------

Exposure: Full Sun	Shape: Rounded to upright-spreading
--------------------	-------------------------------------

Blue Puffball™ Vitex

Vitex agnus-castus 'PIIVAC-II' PP26,775

A true genetic dwarf, Blue Puffball™ is even more compact than Delta Blues™. It forms a perfect ball-shaped plant with short internodes and thick foliage. Mid-green foliage is clean into fall with minimal leaf spot. Deep blue, fragrant flowers bloom from June to September. Flowers form on new growth like *Buddleia* so it can be used as a dieback shrub in colder areas. Bred by Plant Introductions, Inc. (CPBRAf)

USDA Hardiness Zone: 6	AHS Heat Zone: 9

Exposure: Full Sun	Shape: Rounded
--------------------	----------------

NEW 2020

Galactic Pink™ Chastetree

Vitex agnus-castus 'Bailtextwo' PPAF

Galactic Pink™ has flowers that are a beautiful shade of pink and intermediate in size. The fragrant flowers, born in long panicles, bloom from June to October and attract pollinators by the dozens. The dark green foliage is clean and the branching is dense and full. Maturing at a slightly smaller size than Delta Blues™. Like all *Vitex*, it prefers well drained soils, is salt tolerant, and deer resistant.

USDA Hardiness Zone: 6

AHS Heat Zone: 9

Height: 6-8'

Spread: 6-8'

Exposure: Full Sun

Shape: Upright, rounded

Flip Side® Chastetree

Vitex x 'Bailtexone' PP30,283

Developed at Plant Introductions, Inc., this beauty is a seedling selection from *Vitex trifolia* 'Purpurea' x *V. agnus-castus* that combines the best of both parents. Flip Side® is cloaked in 8-inch panicles of fragrant, deep purple flowers that attract a nonstop parade of pollinators. It's also a strong rebloomer. Flip Side® got its name because the greyish olive-green leaves are dusky purple on the lower surface. While *V. trifolia* 'Purpurea' is only hardy to Zone 9, Flip Side™ has been hardy in Athens, Georgia for a number of years, surviving a Zone 7 winter. Flip Side™ is much more compact than either parent. This is a very cool plant for warmer regions. Deer resistant.

USDA Hardiness Zone: 7

AHS Heat Zone: 9

Height: 6-8'

Spread: 8-10'

Exposure: Full Sun

Shape: Upright, arching

WEIGELA COLLECTION

Shining Sensation™ Weigela

Weigela florida 'Bokrashine'

Shining Sensation™ is a blooming machine with pink funnel-shaped flowers that bloom in May and June, and then sporadically through summer. Shiny, burgundy foliage appears as though it has been polished, and contrasts nicely with the pink flowers making this selection a cut above the rest. Long, arching stems provide a handsome architectural element to the mixed border. A Plants Nouveau Introduction.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 5-6'	Spread: 3-4'
Exposure: Full Sun	Shape: Arching

Rainbow Sensation™ Weigela

Weigela florida 'Kolmagira' PP20,384

Even before the first flowers appear, Rainbow Sensation™ stands out due to the attractive, variegated foliage. Dense clusters of soft pink flowers bloom profusely in May or June. Rainbow Sensation™ is especially well suited to urban environments where it is exceptionally cold hardy and performs beautifully with minimal care. Introduced by Plants Nouveau.

USDA Hardiness Zone: 4	AHS Heat Zone: 8
Height: 3-4'	Spread: 3-4'
Exposure: Full Sun	Shape: Compact, rounded

VINES

Atomic Red™ Trumpet Vine

Campsis radicans 'Stromboli'

Dark red buds open to orange-red trumpet-like flowers which deepen in color as they mature to an incredibly bold red. Tubular flowers are larger than the species measuring 3-4 inches long. A vigorous vine, it will climb on stone or woodwork. An outstanding vertical accent to add color to a sunny fence or wall. Selected by Minier Nursery, in France.

USDA Hardiness Zone: 5	AHS Heat Zone: 9
Height: 20-30'	Spread: Varies
Exposure: Full Sun	Shape: Clinging

Autumn Revolution™ Bittersweet

Celastrus scandens 'Bailumn' PP19,811

A revolutionary breakthrough in bittersweet culture. Imagine never having to wonder if you're buying or selling a male or female plant again. The majority of the flowers formed on Autumn Revolution™ are perfect, meaning that the flower itself has both male and female parts. In other words, you only need one plant to bear fruit. Perhaps because of this unique characteristic the fruit production is absolutely extraordinary and the berry size is twice that of the species, but it is not invasive like the Asian species. Truly an improvement for this beloved native vine. Discovered and introduced by Bailey Nurseries.

USDA Hardiness Zone: 2	AHS Heat Zone: 8
Height: 15-25'	Spread: Varies
Exposure: Full Sun	Shape: Twining

Honeybelle™ Honeysuckle

Lonicera x brownii 'Bailelle' PP20,939

The first flush of flowers is like a waterfall of golden blossoms, and the repeat bloom is extraordinarily consistent. Exceptionally hardy, Honeybelle™ withstands temperatures to -39°F with no damage. This compact twining vine will bloom well into fall and produces some red berries. Although it will grow in semi-shaded areas, full sun ensures the best show of blooms. Selected by Steve Gessel of St. Cloud, Minnesota.

USDA Hardiness Zone: 3	AHS Heat Zone: 8
Height: 10-20'	Spread: Varies
Exposure: Full Sun	Shape: Twining

Summer Cascade™ Wisteria

Wisteria macrostachya 'Betty Matthews'

Blooming in June on new growth, individual flowers are borne on long showy racemes and open as a lovely shade of dark lavender before fading. Summer Cascade™ is a beautiful flowering vine which can easily cover an arbor or pergola, creating a cool, shady place. Producing an interesting seed pod in late summer, this vine has lovely multi-season interest and is more reliably cold hardy than other wisteria. Discovered by Betty Matthews in White Bear Lake, Minnesota and given to the University of Minnesota, introduced in partnership with Bailey Nurseries.

USDA Hardiness Zone: 4	AHS Heat Zone: 8
Height: 15-20'	Spread: Varies
Exposure: Full Sun	Shape: Twining

PHLOX COLLECTION

A Plants Nouveau introduction, these phlox are incredibly mildew resistant and wildly floriferous. All these selections are fragrant and compact in habit.

Coral Crème Drop™ Phlox

Phlox paniculata 'Ditomdre' PP20,907

Lovely coral blooms with rosy eyes.

USDA Hardiness Zone: 3	AHS Heat Zone: 8
Height: 18-22"	Spread: 18-24"
Exposure: Full Sun	

Cotton Candy™ Phlox

Phlox paniculata 'Ditomfav' PP21,369

Soft lavender-pink flowers with cotton candy centers.

USDA Hardiness Zone: 3	AHS Heat Zone: 8
Height: 18-22"	Spread: 18-24"
Exposure: Full Sun	

Bubblegum Pink™ Phlox

Phlox paniculata 'Ditomfra' PP21,171

Fragrant bubble gum pink flowers are accentuated by dark pink eyes.

USDA Hardiness Zone: 3	AHS Heat Zone: 8
Height: 18-22"	Spread: 18-24"
Exposure: Full Sun	

Grape Lollipop™ Phlox

Phlox paniculata 'Ditomsur' PP21,109

Grape-colored blooms have striking dark eyes.

USDA Hardiness Zone: 3	AHS Heat Zone: 8
Height: 18-22"	Spread: 18-24"
Exposure: Full Sun	

Sweet Cherry Pie™ Cherry

Prunus 'Eubank'

From Wisconsin orchardist Bill Eubank, this sour pie cherry has the sweetest tasting cherries we've ever sampled. Although not quite sweet enough for eating fresh like a 'Bing', they are fantastic for jams, jellies and pies. With its compact size, this is a great tree for the home garden or small orchard.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 15'	Spread: 12'
Exposure: Full Sun	Shape: Upright spreading

Tawara Asian Pear

Pyrus 'Tawara Oriental'

This Asian pear grown mainly for its edible fruit, has an upright oval form with glossy green foliage which looks great all season long. White flowers in spring make way to the unusual dark tan to light brown fruit, tasting like a cross between apple and pear, with crispy texture. Asian pear cultivars are partially self-fruitful but better crops are set where two or more cultivars are planted together. European pears or Asian pears, such as 'Seckel', 'Bosc' or 'Bartlett', can be used for pollination. Excellent for fresh eating or canning. Discovered by Jeanne & Jim Matsuda of Park Creek Nursery.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 15-18'	Spread: 8-12'
Exposure: Full Sun	Shape: Upright

FRUITS

Chapel View™ Japanese Cedar

Cryptomeria japonica 'PIICJ-I'

With its broad pyramidal habit, but compact form, this lovely evergreen fits beautifully in small space gardens. A 13-year-old specimen is 7' in height and 5' in width. Readily pruned to maintain a desirable landscape size. The blue-green needles are resistant to winter bronzing and add a welcome touch of color to the winter landscape. To date, minimal male and female cone production. Introduced by Plant Introductions, Inc. and Sarah P. Duke Gardens.

USDA Hardiness Zone: 6	AHS Heat Zone: 9
Height: 5-10'	Spread: 4-8'
Exposure: Full Sun to Part Shade	Shape: Broad pyramidal

Sky High™ Juniper

Juniperus scopulorum 'Bailigh'

Attractive silvery-blue, dense foliage highlights this improved variety of Rocky Mountain juniper. Strongly columnar in form, it requires little pruning to maintain its narrow shape. Tolerant of dry soil conditions. Selected by Bailey Nurseries from the prairies of North Dakota.

USDA Hardiness Zone: 3	AHS Heat Zone: 7
Height: 12-15'	Spread: 3-5'
Exposure: Full Sun	Shape: Columnar

EVER GREENS

Technito® Arborvitae

Thuja occidentalis 'BailJohn' PP15,850

Technito® has the attractive dark green color of 'Techny' and retains the winter foliage color just as well. This cultivar, being noticeably denser, is an improvement because it requires less shearing to retain a compact pyramidal outline. Discovered by Johnson's Nursery, Inc. of Wisconsin and co-introduced by Bailey Nurseries, Inc. C®

USDA Hardiness Zone: 3	AHS Heat Zone: 7
Height: 8-10'	Spread: 4-5'
Exposure: Full Sun	Shape: Compact pyramidal

Technito® Globe Arborvitae

Thuja occidentalis 'BailJohn' PP15,850

Technito® Globe has the attractive dark green color of 'Techny' and retains it through winter just as well. This cultivar, being noticeably more compact, makes an excellent accent plant. Some shearing will be required to maintain its rounded form. C®

USDA Hardiness Zone: 3	AHS Heat Zone: 7
Height: 2'	Spread: 2'
Exposure: Full Sun	

TREES

1- Matador™ Maple

Acer x freemanii 'Bailston'

Selected because of its superior habit and fall color, Matador™ turns deeper red than Autumn Blaze® and colors more consistently than Sienna Glen®. An adaptable tree with an upright, symmetrical form. Gains its fall color a bit later than other cultivars and holds its leaves longer. Excellent choice for lawn, street or park. Discovered in 1997 at our container tree farm by Kevin Johnston of Bailey Nurseries.

USDA Hardiness Zone: 4

AHS Heat Zone: 7

Height: 40-45'

Spread: 20-40'

Exposure: Full Sun

Shape: Upright oval

2- Parkland Pillar™ Birch

Betula platyphylla 'Jefpark' PP25,468

A beautiful birch with a narrow, upright, dense habit. It boasts white bark and dense, dark green foliage that turns golden in late fall. This fast growing variety is suitable for gardens, screens or boulevards. Tolerant of heat, drought, and alkaline soils, Parkland Pillar™ is an excellent choice for urban landscapes. Its narrow form makes it perfect as an accent tree, or it can be planted in multiples to form a privacy screen. This selection of Dakota Pinnacle® was found at Parkland Nurseries in Alberta in 2006. (CPBR #4513, ®CA)

USDA Hardiness Zone: 3

AHS Heat Zone: 7

Height: 40'

Spread: 6-7'

Exposure: Full Sun

Shape: Columnar

3- Centennial Blush™ Star Magnolia

Magnolia stellata 'Centennial Blush' PP22,248

Pink buds open to incredibly full and wonderfully fragrant pale pink flowers in spring. Centennial Blush™ is a prolific bloomer with flower buds formed at almost every node yielding a fantastic floral display of delicate pink covering the entire plant. Blooms just as reliably in St. Paul, Minnesota as in Athens, Georgia. Centennial Blush™ is also well adapted to a variety of soils. Attractive medium green foliage on an interesting branching structure follows in summer, turning yellow to bronze in autumn. Can be grown as a large shrub or a small tree, perfectly suited for small urban gardens. Bred by Michael Dirr of the University of Georgia.

USDA Hardiness Zone: 4

AHS Heat Zone: 9

Height: 12-18'

Spread: 10-15'

Exposure: Full Sun

Shape: Upright oval

Ruby Tears™ Crab

Malus 'Bailears' PP22,001

Red buds open to fragrant pink flowers which completely engulf the cascading branches each spring. This naturally weeping crab has a habit similar to 'Louisa' and burgundy-green foliage like 'Prairifire'. Attractive dark red fruit lasts into mid-winter. This seedling was found at Beverly Nursery in Indiana.

USDA Hardiness Zone: 4	AHS Heat Zone: 7
Height: 8-10'	Spread: 12-15'
Exposure: Full Sun	Shape: Weeping

Gladiator™ Crabapple

Malus x adstringens 'Durleo' PP20,167

Gladiator™ is an excellent ornamental tree with a profusion of bright pink flowers followed by small reddish-purple fruit on a stately, upright crown. Bronze-purple leaves that are darker and glossier than Purple Prince, remain lush all season long, and are highly disease resistant. Compared to Purple Prince, Gladiator™ also has better resistance to fireblight. Gladiator™ is an ideal ornamental tree for space challenged sites including under power lines, as a small boulevard tree or planted in a row for a screen. This is an open-pollinated selection of 'Royalty'. Selected by Rick Durand, from Portage la Prairie MB, CA. (®CA)

USDA Hardiness Zone: 2	AHS Heat Zone: 7
Height: 20'	Spread: 9'
Exposure: Full Sun	Shape: Upright

Goldspur™ Amur Chokecherry

Prunus maackii 'Jefspur' PP19,665

This unique form of the classic Amur cherry is the perfect tree for small space gardens in cold climates. Winter hardy to Zone 2, mature plants of Goldspur™ reach 10-15' in height and 6-9' in spread, creating an upright oval tree that is half the size of the species. Creamy white spring flowers produce compact clusters of tiny black fruit in summer. The golden-colored exfoliating bark is especially ornamental in winter. Selected by Philip Ronald. (CPBR #3903, ©CA)

USDA Hardiness Zone: 2	AHS Heat Zone: 6
Height: 10-15'	Spread: 6-9'
Exposure: Full Sun	Shape: Upright

Majestic Skies™ Northern Pin Oak

Quercus ellipsoidalis 'Bailskies'

Majestic Skies™ is a distinct improvement over the species with straighter branching and a more symmetrical shape. Foliage emerges red in spring and is more substantial and darker green than the species. Excellent red fall color. Northern pin oaks prefer to grow in full sun with deep, well-drained soil. Discovered at Bailey Nurseries.

USDA Hardiness Zone: 3	AHS Heat Zone: 6
Height: 60'	Spread: 45'
Exposure: Full Sun	
Shape: Conical in youth, maturing to broad oval	

Snowdance™ Japanese Tree Lilac

Syringa reticulata 'Bailnce' PP20,458

Although the species tend to flower biennially, Snowdance™ flowers well annually and begins flowering at an earlier age than the species. It has exceptionally heavy bloom with large, fragrant, creamy white flower clusters in June. This variety produces few untidy brown seedheads. Lustrous dark green foliage is slightly larger and darker than the species. Snowdance™ grows as wide as it is tall with attractive, shelved branching. A pest-and-disease-free lilac tree, it is ideal for residential and park use and is equally attractive as a specimen as it is in group plantings. Selected by Rod Bailey for its remarkably heavy bloom.

USDA Hardiness Zone: 3	AHS Heat Zone: 7
Height: 18'	Spread: 20'
Exposure: Full Sun	Shape: Vase shaped, spreading

St Croix™ American Elm

Ulmus americana 'St Croix' PP20,097

St. Croix™ Elm is a new and distinct American elm with good tolerance to Dutch elm disease. With a grand vase shape and an open, spreading canopy, St. Croix™ promises to revitalize this well-loved shade tree. Its summer foliage is a beautiful dark green with fall foliage turning a wonderful yellow. The selection is a clone from a tree in Minnesota that survived in a stand of DED-infected elms for over 35 years. In testing at the University of Minnesota, St. Croix™ shows very good DED tolerance in repeated field trials with controlled inoculation. Selected by Chris Bliska.

USDA Hardiness Zone: 3	AHS Heat Zone: 6
Height: 60-75'	Spread: 70-90'
Exposure: Full Sun	Shape: Broadly vase-shaped
